[Docket No. 93D-0236]

Gender Studies in Product Development, Scientific Issues and Approaches; Notice of a Public Workshop

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a public workshop entitled "Gender Studies in Product Development: Scientific Issues and Approaches" is being held on November 6 and 7, 1995. The workshop will focus on issues related to FDA's guideline entitled "Guideline for the Study and Evaluation of Gender Differences in the Clinical Evaluation of Drugs." The guideline provides guidance on FDA's expectations regarding inclusion of both genders in drug development.

DATES: The public workshop will be held on November 6 and 7, 1995, from 7:30 a.m. to 4 p.m.; an opportunity for public comment is planned on November 6, 1995, from 2:15 p.m. to 3:15 p.m. Interested persons should register by October 23, 1995. Attendance will be limited based on the availability of seating. Submit written notices of participation by October 23, 1995. Time may be limited depending on the number of participants scheduled to speak.

ADDRESSES: The public workshop will be held at Doubletree Hotel, 1750 Rockville Pike, Rockville, MD 20852, 301-468-1100. Participants who wish to speak during the public comment session should request time by sending their name, affiliation, address, and phone number to John Sellman, Sociometrics, Inc., 8300 Colesville Rd., suite 550, Silver Spring, MD 20910,

301-608-2151, or FAX 301-608-3542. There is no registration fee, for this workshop. Those persons interested in attending the public workshop should mail their registration to Sociometrics, Inc. (address above). Copies of the transcript of the workshop summary will be available from the Freedom of Information Public Records and Documents Center (HFI-35), 5600 Fishers Lane, Rockville, MD 20057.

FOR FURTHER INFORMATION CONTACT: Mary C. Gross, Office of External Affairs (HF-60), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-3364.

SUPPLEMENTARY INFORMATION: In the Federal Register of July 22, 1993 (58 FR 39406), FDA published a notice on a guideline entitled "Guideline for the Study and Evaluation on Gender Differences in the Clinical Evaluation of Drugs." The guideline discusses: Inclusion of patients of both genders in drug development; analyses of clinical data by gender; assessment of potential patient differences on the basis of gender, age, race, disease state, organ function, body size, genetic polymorphism and other characteristics that may affect responses to drugs, biologics or medical devices. The workshop will encourage an open scientific exchange in order to raise questions and issues related to the guideline.

Optimal treatment of patients in some instances, may depend on an awareness of the effect of these characteristics so that suitable adjustments may be made in dosage amount and dosage schedules. Questions have arisen, however, regarding the clinical trials that are needed or that can be developed to carry out appropriate gender analysis and detect important clinical differences in gender related responses.

It is expected that by using gender as the model characteristic in this workshop, important information may be derived regarding patient characteristics that affect the safety and efficacy profile of medical products.

Dated: September 19, 1995.

William B. Schultz,

Deputy Commissioner for Policy.
