

enable NRC to take necessary action if it determines that an Agreement State program is inadequate or incompatible?

(5) Do these four actions, in addition to other actions taken by NRC combine to provide an ample margin of safety to protect public health?

EPA is not requesting further comments on the nature of current radionuclide emissions by facilities subject to subpart I, or any other issue not expressly addressed by this notice or the NRC proposals and policies on which it is based. EPA does not expect to respond to any specific comments which are outside the scope of this notice.

#### List of Subjects in 40 CFR Part 61

Environmental protection, Air pollution control, Arsenic, Asbestos, Benzene, Beryllium, Hazardous substances, Mercury, Radionuclides, Radon, Reporting and recordkeeping requirements, Uranium, Vinyl Chloride.

Dated: September 8, 1995.

#### Clean Air Act Final Full Approval of Operating Permits Programs in Oregon

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is promulgating full approval of the operating permits programs submitted by the Oregon Department of Environmental Quality (ODEQ) and Lane Regional Air Pollution Authority (LRAPA) for the purpose of complying with Federal requirements for an approvable State program to issue operating permits to all major stationary sources, and to certain other sources. In the final rules section of this Federal Register, EPA is approving the ODEQ and LRAPA Operating Permits Programs as a direct final rule without prior proposal because the Agency views this as a noncontroversial rule revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in

a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this notice.

**DATES:** Comments on this proposed rule must be received in writing by October 30, 1995.

**ADDRESSES:** Written comments should be addressed to David C. Bray, (AT-082), Air Compliance and Permitting Section, at the EPA Regional Office listed below. Copies of the documents relevant to this proposed rule are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24-hours before the visiting day.

Copies of Oregon's submittal and other supporting information used in developing the final full approval are available for inspection during normal business hours at the following location: U.S. Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington.

**FOR FURTHER INFORMATION CONTACT:**

David C. Bray, U.S. Environmental Protection Agency, 1200 Sixth Avenue, AT-082, Seattle, Washington 98101, (206) 553-4253.

**SUPPLEMENTARY INFORMATION:** See the information provided in the Direct Final action which is located in the Rules Section of this Federal Register.

Dated: September 19, 1995.

Jane S. Moore,

*Acting Regional Administrator.*

#### Clean Air Act Proposed Interim Approval Of Operating Permits Program; Washington

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed action and proposed notice of correction.

**SUMMARY:** EPA is reproposing interim approval of one element of the State of Washington's title V air operating permits program. On November 9, 1994, EPA granted interim approval to Washington's operating permits program. 59 FR 55813 (November 9, 1994). One of the basis for granting Washington's program interim rather than full approval was that EPA determined that Washington's exemption for "insignificant emission

units" exceeded the exemption authorized for such units under the Clean Air Act. A coalition of industries filed a petition for review of EPA's decision to condition full approval on changes to Washington's treatment of insignificant emission units. Upon EPA's request for a voluntary remand, the Court remanded this interim approval issue to EPA for reconsideration. EPA continues to believe that Washington has impermissibly expanded the exemption for insignificant emission units, but for somewhat different reasons, and therefore again proposes to condition full approval of the Washington operating permits program on changes to Washington's treatment of insignificant emission units.

EPA also proposes to approve a change to the jurisdiction of the Benton County Clean Air Authority.

Finally, EPA is proposing to correct the date for expiration of the interim approval and the due date of the required submission addressing the interim approval issues.

**DATES:** Comments on this proposed action must be received in writing by October 30, 1995.

**ADDRESSES:** Written comments should be addressed to: David C. Bray, Permits Program Manager, U.S. Environmental Protection Agency, Region 10, Air and Radiation Branch (AT-082), 1200 Sixth Avenue, Seattle, Washington 98101.

Copies of the State's submittal and other information supporting this proposed action are available for inspection during normal business hours at the following location: U.S. Environmental Protection Agency, Region 10, Air & Radiation Branch (AT-082), 1200 Sixth Avenue, Seattle, Washington 98101.

**FOR FURTHER INFORMATION CONTACT:**

David C. Bray, Permits Program Manager, Air and Radiation Branch (AT-082), U.S. Environmental Protection Agency, Region 10, Seattle, Washington, (206) 553-4253.

**SUPPLEMENTARY INFORMATION**

I. Background and Purpose

A. Introduction

As required under title V of the 1990 Clean Air Act Amendments (sections 501-507 of the Clean Air Act ("the Act")), EPA has promulgated rules which define the minimum elements of an approvable State operating permits program and the corresponding standards and procedures by which the EPA will approve, oversee, and withdraw approval of State operating permits programs (see 57 FR 32250 (July
