We have not changed the margin from that presented in our preliminary results of review.

SUPPLEMENTARY INFORMATION:

Background

On August 2, 1995, the Department published in the Federal Register (60 FR 39359) the preliminary results of the administrative review of the antidumping duty order on iron construction castings from the PRC (51 FR 17222 (May 9, 1986)). The preliminary results indicated the existence of a dumping margin for the respondent, based on the best information available. The petitioner submitted a case brief, arguing that the Department affirm its preliminary results of review. The Department has now completed this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).
