

Tamini. Therefore, in accordance with section 773(a)(2) of the Tariff Act, we calculated foreign market value based on constructed value of the model sold in the United States.

In accordance with section 773(e) of the Tariff Act, the constructed value includes the costs of materials and fabrication, general expenses, profit, and packing for shipment to the United States. Home market selling expenses were used pursuant to section 773(e)(1)(B) of the Tariff Act. Since the profit submitted by Tamini exceeded the statutory eight percent profit, we applied the submitted profit to the cost of production.

We made circumstance-of-sale adjustments for differences in credit expenses, direct bank charges, warranty expenses, and technical service expenses. Since commissions were granted only in the home market, we offset the commission adjustment by adding U.S. indirect selling expenses to the constructed value. Based on information contained in Tamini's questionnaire responses and on our verification of this information, we have determined that Tamini did not report all of its U.S. indirect selling expenses. Therefore, we offset the full amount of the commission adjustment as best information available.

Preliminary Results of Review

As a result of our comparison of USP to foreign market value, we preliminarily determine that a weighted-average margin of zero percent exists for sales of LPTs made to the United States by Tamini during the period June 1, 1993 through May 31, 1994.

Parties to this proceeding may request disclosure within 5 days of publication of this notice and may request a hearing within 10 days of publication. Any hearing, if requested, will be held 44 days after the date of publication or the first business day thereafter. Case briefs and/or written comments from interested parties may be submitted not later than 30 days after the date of publication of this notice. Rebuttal briefs and rebuttals to written comments, limited to issues raised in those comments, may be filed not later than 37 days after the date of publication of this notice. Service of all briefs and written comments must be in accordance with 19 CFR 353.38(e). The Department will publish the final results of the administrative review, including the results of its analysis of any such comments or hearing.

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate

entries. The Department will issue appropriate appraisal instructions directly to the Customs Service upon completion of this review.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for Tamini will be the rate established in the final results of this administrative review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will be 92.47 percent, which is the "new shipper" rate established in the first final results of review of this finding. *See Large Power Transformers from Italy: Notice of Final Results of Administrative Review*, 49 FR 31313 (August 6, 1984). For a further explanation of our policy concerning the cash deposit rate in this case, *see Large Power Transformers from Italy: Notice of Final Results of Administrative Review*, 59 FR 48851 (September 23, 1994). These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22(c)(5).

Dated: September 20, 1995.

ACTION: Notice of completion of panel review.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established Rules of Procedure for Article 1904 Binational Panel Reviews ("Rules"). No Request for an Extraordinary Challenge Committee has been filed with the Responsible

Secretary. Therefore, pursuant to subrule 78(b) of the NAFTA Article 1904 Panel Rules, this Notice of Completion of Panel Review is effective on August 22, 1995, the 31st day following the date on which the Responsible Secretary issued the Notice of Final Panel Action.
