

**SUPPLEMENTARY INFORMATION:****Background**

On July 27, 1995, the Department of Commerce (the Department) published the preliminary results of its administrative review of the antidumping finding (37 FR 11773, June 14, 1972) on large power transformers from Japan in the Federal Register (57 FR 53468). The Department has now completed that administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

**Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

**Scope of the Review**

Imports covered by the review are shipments of large power transformers; that is, all types of transformers rated 10,000 kVA (kilovolt-amperes) or above, by whatever name designated, used in the generation, transmission, distribution, and utilization of electric power. The term "transformers" includes, but is not limited to, shunt reactors, autotransformers, rectifier transformers, and power rectifier transformers. Not included are combination units, commonly known as rectiformers, if the entire integrated assembly is imported in the same shipment and entered on the same entry and the assembly has been ordered and invoiced as a unit, without a separate price for the transformer portion of the assembly. This merchandise is currently classifiable under the Harmonized Tariff Schedule (HTS) item numbers 8504.22.00, 8504.23.00, 8504.34.33, 8504.40.00, and 8504.50.00. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers one manufacturer/exporter of transformers, Fuji Electric Co., Ltd. (Fuji). The period of review is June 1, 1993, through May 31, 1994.

**Final Results of Review**

Although we gave interested parties an opportunity to comment on the preliminary results, we did not receive any comments. Because Fuji reported, and the Department verified through the Customs Service, that Fuji made no shipments to the United States during the period of review, a cash deposit rate of 5.90 percent, which is Fuji's rate from the final results of the last review period

in which Fuji made shipments, will remain in effect for Fuji.

Furthermore, the following deposit requirements will be effective upon publication of these final results of administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption, as provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for the reviewed company will be the rate as listed above; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise, and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 10.63 percent (*see Large Power Transformers from Japan; Final Results of Antidumping Duty Administrative Review*, 59 FR 44498, August 23, 1993).

These cash deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: September 20, 1995.

Paul L. Joffe,

*Deputy Assistant Secretary for Import Administration.*

**Georgia State University, Notice of Decision on Application for Duty-Free Entry of Scientific Instrument**

This decision is made pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 AM and 5:00 PM in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C.

*Docket Number:* 95-047. *Applicant:* Georgia State University, Atlanta, GA 30303. *Instrument:* Laser Ablation System, Model 266. *Manufacturer:* Finnigan MAT, United Kingdom. *Intended Use:* See notice at 60 FR 33190.

*Comments:* None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* This is a compatible accessory for an instrument previously imported for the use of the applicant.

The accessory is pertinent to the intended uses and we know of no domestic accessory which can be readily adapted to the previously imported instrument.

Frank W. Creel,

*Director, Statutory Import Programs Staff.*
