An interim final rule concerning this action was published in the August 21, 1995 Federal Register [60 FR 43352], with a 30 day comment period ending September 30, 1995. No comments were received.

While this action will impose some additional costs on handlers, the cost are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs will be offset by the benefits derived from the operation of the marketing orders. Therefore, the Administrator of the AMS has determined that this action will not have a significant economic impact on

a substantial number of small entities. It is found that the specified expenses for the marketing orders covered in their rule are reasonable and likely to be incurred and that such expenses and the specified assessment rates to cover such expenses will tend to effectuate the declared policy of the Act.

After consideration of all relevant material presented, including the Committee's recommendations, and other available information, it is found that this interim final rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this action until 30 days after publication in the Federal Register because the Committees need to have sufficient funds to pay their expenses which are incurred on a continuous basis. The 1995-96 fiscal year began on March 1, 1995, and the marketing orders require that the rates of assessment for the fiscal year apply to all assessable nectarines and peaches handled during the fiscal year. In addition, handlers are aware of this action which was recommended by the Committees at public meetings. No comments were received concerning the interim final rule that is adopted in this action as a final rule without change.
