SUPPLEMENTARY INFORMATION:

Commission seeks comment on MCI Petition for Clarification and/or Reconsideration of Commission Order finalizing rules implementing the Telephone Consumer Protection Act [CC Docket No. 92-90; DA 95-2030].

Released: September 22, 1995.

Comments Due: October 20, 1995.

Replies Due: November 3, 1995.

On September 14, 1995, MCI Telecommunications Corporation ("MCI") filed a Petition for Clarification

and/or Reconsideration regarding Section 68.318 of the Commission's Rules, which requires that all facsimile transmissions identify the entity or individual sending the message and the telephone number of the facsimile machine, entity or individual sending the message. In a Memorandum Opinion and Order ("Order") adopted on July 26, 1995, 60 FR 42068, August 15, 1995, the Commission stated that facsimile broadcast service providers must comply with these identification requirements. MCI asserts that the Order therefore requires two entities to identify themselves, the facsimile broadcaster and the entity on whose behalf the facsimile is being sent, while the rule only requires the identification of one entity. MCI asks the Commission to clarify or, in the alternative, reconsider its Order with respect to this issue.

We invite comment on MCI's Petition for Clarification and/or Reconsideration. Comments should be filed on or before October 20, 1995, and Reply Comments should be filed on or before November 7, 1995. All comments should be filed with the Office of the Secretary, Federal Communications Commission, 1919 M Street, NW., Room 222, Washington, DC 20554, referencing CC Docket No. 92-90. The full text of the Petition is available for inspection and duplication during regular business hours in the FCC Reference Center, Federal Communications Commission, 1919 M Street, N.W., Room 239, Washington, DC 20554. 47 CFR Part 76

[MM Docket No. 92-266, FCC 95-397]

Cable Television Act of 1992

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission has adopted a Thirteenth Order on Reconsideration in MM Docket 92-266 to simplify rules affecting cable operators' rates and to provide cable operators with an additional option for adjusting their rates. This streamlined methodology encourages operators to limit rate increases to once per year rather than up to 4 times per year under the existing methodology. It will also limit delays in recovering costs that operators have experienced under the current system. This streamlined rate review process benefits all affected parties. An annual rate adjustment option could eliminate subscriber confusion and frustration because subscribers will not have to contend with numerous rate increases during a given year. Annual adjustments also benefit cable operators because filing for rate increases and providing notice to subscribers of such rate increases once per year is more efficient. Regulatory authorities benefit from an annual rate adjustment system because such a system minimizes the number of rate adjustments they have to review each year.

EFFECTIVE DATE: November 6, 1995, except that new reporting requirements shall take effect thirty (30) days after approval of the Office of Management and Budget. At a later date, the Commission will publish a document specifying the effective date.
