**SUPPLEMENTARY INFORMATION:** PS 1-95, a revision of PS 1-83, was developed by the Standing Committee for Voluntary Product Standard PS 1. The Committee is composed of representatives of producers, distributors, and consumers of construction and industrial plywood, and others with an interest in the Standard. NIST published a notice in the Federal Register on February 21, 1995 (60 FR 9670) that it was circulating the standard for public review and comment. The revision was processed in accordance with the provisions of the Department of Commerce "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as amended; 51 FR 119 dated June 20, 1986). A 75-day public comment period was allowed.

Public responses to the revision indicated consensus among producers, distributors, users, and consumers in accordance with Department procedures. The Standard was approved to supersede PS 1-83, effective September 7, 1995. New to PS 1-95 is the incorporation of a performance-based method for evaluating new species, judged desirable because of the changing available timber resource for plywood production; and the elimination of Structural II panel grades based on the fact that this product had rarely been manufactured since it was first introduced in PS 1-66. In some instances, the text has been reformatted, and throughout the Standard, units of measurement are provided in both metric and conventional units.

Authority: 15 USC 272.

Dated: October 2, 1995.

Associate Director.
