**Notice of Price Determination; Uranium  
 From Kazakhstan, Kyrgyzstan, and  
 Uzbekistan**

**AGENCY:** International Trade  
 Administration, Import Administration,  
 Commerce.

**ACTION:** Notice of Price Dermination;  
 Uranium from Kazakhstan, Kyrgyzstan,  
 and Uzbekistan.

**SUMMARY:** Pursuant to section IV.C.1. of  
 the antidumping suspension agreements  
 on uranium from Kazakhstan,  
 Kyrgyzstan, and Uzbekistan, the  
 Department calculated a price for  
 uranium of \$12.25/lb. On the basis of  
 this price, the export quota for uranium  
 pursuant to Section IV.A. of the Uzbek  
 and Kyrgyz agreements is zero. The  
 export quota for uranium pursuant to  
 Section IV.A. of the Kazakhstani  
 agreement, as amended on March 27,  
 1995, is 500,000 lbs. for the period  
 October 1, 1995, through March 31,  
 1996. Exports pursuant to other  
 provisions of the agreements are not  
 affected by this price.

**EFFECTIVE DATE:** October 2, 1995.

**FOR FURTHER INFORMATION CONTACT:**  
 James Doyle or Daniel Miller, Office of  
 Agreements Compliance, Import  
 Administration, International Trade  
 Administration, U.S. Department of  
 Commerce, 14th Street & Constitution  
 Ave., NW, Washington, DC 20230;  
 telephone: (202) 482-0172 or (202) 482-  
 1102, respectively.

Price Calculation

*Background*

Section IV.C.1. of each agreement  
 specifies that the Department of  
 Commerce (DOC) will issue its observed  
 market price on October 1, 1995, and  
 use it to determine the quota applicable  
 to exports from the various republics  
 during the period October 1, 1995 to  
 March 31, 1996. Consistent with the  
 Department's letters of interpretation  
 dated February 22, 1993, we provided  
 interested parties our preliminary price  
 determination on September 15, 1995.

*Calculation Summary*

Section IV.C.1. of each agreement  
 specifies how the components of the  
 market price are reached. In order to  
 determine the spot market price, the

Department utilized the monthly  
 average of the Uranium Price  
 Information System Spot Price Indicator  
 (UPIS SPI) and the weekly average of  
 the Uranium Exchange Spot Price (Ux  
 Spot). In order to determine the long-  
 term market price, the Department  
 utilized the weighted average long-term  
 price as determined by the Department  
 on the basis of information provided by  
 market participants and a simple  
 average of the UPIS Base Price for the  
 months in which there were new  
 contracts reported.

Our letters to market participants  
 provided a contract summary sheet and  
 directions requesting the submitter to  
 report his/her best estimate of the future  
 price of merchandise to be delivered in  
 accordance with the contract delivery  
 schedules (in U.S. dollars per pound  
 U<sub>3</sub>O<sub>8</sub> equivalent). Using the information  
 reported in the proprietary summary  
 sheets, the Department calculated the  
 present value of the prices reported for  
 any future deliveries assuming an  
 annual inflation rate of 2.65 percent,  
 which was derived from a rolling  
 average of the annual GNP Implicit  
 Price Deflator index from the past four  
 years. The Department used the base  
 quantities reported on the summary  
 sheet for the purpose of weight-  
 averaging the prices of the long-term  
 contracts submitted by market  
 participants. We then calculated a  
 simple average of the UPIS Base Price  
 and the long-term price determined by  
 the Department.

*Weighting*

The Department used the average spot  
 and long-term volumes of U.S. utility  
 and domestic supplier purchases, as  
 reported by the Energy Information  
 Administration (EIA), to weight the spot  
 and long-term components of the  
 observed price. In this instance, we have  
 used purchase data from the period  
 1989-1992, as in the previous  
 determination. During this period, the  
 spot market accounted for 31.39 percent  
 of total purchases, and the long-term  
 market for 68.61 percent. We were not  
 able to include data from the 1993 and  
 1994 EIA Uranium Industry Annuals  
 because it has been withheld due to its  
 proprietary nature.

*Calculation Announcement*

The Department determined, using  
 the methodology and information  
 described above, that the observed  
 market price is \$12.25. This reflects an  
 average spot market price of \$11.60,  
 weighted at 31.39 percent, and an  
 average long-term contract price of  
 \$12.54, weighted at 68.61 percent. Since  
 this price is below the \$13.00/lb.

minimum expressed in Appendix A of  
 the Uzbek and Kyrgyz agreements, there  
 will be no quota under Section IV.A. of  
 the agreements available to these  
 republics for the period October 1, 1995  
 to March 31, 1996. However, since this  
 price is above the \$12.00/lb. minimum  
 expressed in Appendix A of the  
 amended Kazakhstani agreement,  
 Kazakhstan receives a quota of 500,000  
 lbs. for the period October 1, 1995 to  
 March 31, 1996. We have determined  
 that the observed market price for  
 uranium is \$12.25/lb. The Department  
 invites parties to provide pricing  
 information for use in the next price  
 determination. Any such information  
 should be provided for the record and  
 should be submitted to the Department  
 by March 5, 1996.

Dated: October 2, 1995.  
 Joseph A. Spetrini,  
 Deputy Assistant Secretary for Compliance.

**Gray Portland Cement and Clinker  
 From Japan; Preliminary Results of  
 Antidumping Duty Administrative  
 Review**

**AGENCY:** Import Administration,  
 International Trade Administration,  
 Department of Commerce.

**ACTION:** Notice of Preliminary Results of  
 Antidumping Duty Administrative  
 Review.

**SUMMARY:** In response to a request from  
 the Ad Hoc Committee of Southern  
 California Producers of Gray Portland  
 Cement (the petitioner) and Onoda  
 Cement Company, Ltd. (the respondent),  
 the Department of Commerce (the  
 Department) is conducting an  
 administrative review of the  
 antidumping duty order on gray  
 portland cement and clinker from Japan.  
 The review covers one manufacturer/  
 exporter, Onoda Cement Co., Ltd.  
 (Onoda), and the period May 1, 1993,  
 through April 30, 1994 (POR). The  
 review indicates the existence of  
 dumping margins during this period.

We have preliminarily determined  
 that sales have been made below the  
 foreign market value (FMV). If these  
 preliminary results are adopted in our  
 final results of administrative review,  
 we will instruct the U.S. Customs  
 Service (Customs) to assess  
 antidumping duties equal to the  
 difference between the United States  
 price (USP) and FMV. Interested parties  
 are invited to comment on these  
 preliminary results.
