Federal, State, and local agencies as well as individuals and organizations who may be interested in, or affected by the proposed action. Public scoping meetings are planned for Juneau at Centennial Hall from 2 p.m. until 7 p.m. on Wednesday, October 11 and in Haines at the Council Chambers in City Hall from 2 p.m. until 7 p.m. on Thursday, October 12. If weather precludes travel to Haines on the 12th, the meeting will be held October 19 instead.

The draft supplemental environmental impact statement should be available for public review by December 15, 1995. The comment period on the draft supplemental environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the Federal Register.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. Vermont Yankee Nuclear Power Corp. v. NRDC, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after the completion of the final environmental impact statement may be waived or dismissed by the courts. City of Angoon v. Hodel, 803 F.2d. 1016, 1022 (9th Cir. 1986) and Wisconsin Heritages, Inc. v. Harris, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement. To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing

the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

The final supplemental environmental impact statement is scheduled to be completed by February 15, 1996. The Forest Supervisor for the Chatham Area of the Tongass National Forest will, as the responsible official for the EIS, make a decision regarding this proposal considering the comments, responses, and environmental consequences discussed in the Final SEIS, and applicable laws, regulations, and policies. The decision and supporting reasons will be documented in a Record of Decision.

Gary A. Morrison,
Forest Supervisor.
