

socioeconomic impacts related to the possible alternatives and addresses broad program level issues rather than site-specific effects. It will be used in the process of selecting an alternative. The four alternatives evaluated in the PEA are summarized below.

1. No Action: The Coast Guard would continue to operate the training centers as they currently exist.

2. Consolidate East Coast: TRACEN Petaluma would close and its training functions would be relocated to RTC Yorktown, TRACEN Cape May, and the Coast Guard Academy.

3. Consolidate Tidewater Area: TRACEN Petaluma and TRACEN Cape May would close and their functions would be relocated to RTC Yorktown and ATTC Elizabeth City.

4. Consolidate to a DOD facility: TRACEN Petaluma, TRACEN Cape May, and ATTC Elizabeth City would close. RTC Yorktown would continue to remain a Coast Guard facility but would not continue to be a training center. The other training functions from the four training centers would be transferred to an undetermined Department of Defense (DOD) installation. Other tenant commands at the four Coast Guard installations would remain, with RTC Yorktown being reused by other Coast Guard activities. The impacts at TRACEN Petaluma and TRACEN Cape May for this alternative are the same as those under Alternative 3.

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality Regulations (40 CFR Part 15), and the Coast Guard Implementing Procedures and Policies (COMDTINST M16475.1B), the Coast Guard found that Alternatives 1, 2, and 3 will have no significant environmental effects and, therefore, adopting any of these alternatives will not require an environmental impact statement. If Alternative 4 is selected, a specific DOD facility will be considered and an appropriate NEPA analysis will be conducted to address environmental impacts at that DOD facility.

The PEA evaluates the potential environmental impacts of each alternative, including: land use; infrastructure and transportation; hazardous materials and waste management; biological resources; cultural resources; air quality; noise; and water resources. Socioeconomic issues are also evaluated. Other environmental impacts, including impacts on geology, soils, and bathymetry, are not expected to be affected from the action and are not evaluated in detail. Environmental impacts related to potential reuse and

disposal of facilities will be the subject of subsequent NEPA analyses.

As revised, the PEA lists specific planning tasks to be implemented subsequent to approval of one of the alternatives. Compliance with all applicable federal, state, and local regulations and Coast Guard policy will be carried out at every training facility.

Dated: October 12, 1995.

Approval Signature:

T.W. Josiah,

Rear Admiral, U.S. Coast Guard, Director of Resources.

BILLING CODE 4910-14-M

Federal Aviation Administration

Aviation Rulemaking Advisory Committee; Noise Certification Issues—Revised Task

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of revised task assignment for the Aviation Rulemaking Advisory Committee.

SUMMARY: Notice is given of a change in the task assigned to and accepted by the Aviation Rulemaking Advisory Committee (ARAC). This notice informs the public of the activities of the ARAC.

FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Dykeman, Assistant Executive Director for Noise Certification, Deputy Director, Office of Environment and Energy (AEE-2), 800 Independence Avenue, SW., Washington, DC 20591, Telephone: (202) 267-3577; FAX: (202) 267-5594.

SUPPLEMENTARY INFORMATION: The Federal Aviation Administration (FAA) established an Aviation Rulemaking Advisory Committee (ARAC) (56 FR 2190, January 22, 1991; and 58 FR 9230, February 19, 1993) to provide advice and recommendations to the FAA Administrator, through the Associate Administrator for Regulation and Certification, on the full range of the FAA's rulemaking activities with respect to aviation-related issues. This includes obtaining advice and recommendations on the FAA's commitment to harmonize its Federal Aviation Regulations (FAR) and practices with its trading partners in Europe and Canada.

One area of the ARAC deals with noise certification issues. These issues involve the harmonization of part 36 of the Federal Aviation Regulations (14 CFR part 36) with Joint Aviation Requirements (JAR) part 36, their associated guidance material including

equivalent procedures, and the interpretation of the regulations. The FAR/JAR Harmonization Working Group for Subsonic Transport Category Large Airplanes and Subsonic Turbojet Powered Airplanes will forward recommendations to the ARAC, which will determine whether to forward them to the FAA.

The Revised Task

This notice is to inform the public that the FAA has revised a task previously assigned to ARAC. The revised task has been accepted by ARAC. The FAA has asked ARAC to provide advice and recommendation on the following revised task:

Specifically, the FAR/JAR Harmonization Working Group for Subsonic Transport Category Large Airplanes and Subsonic Turbojet Powered Airplanes is charged with reviewing the applicable provisions of subparts A, B, C, and D, appendices A, B, and C of the 14 CFR part 36 and harmonizing them with the corresponding applicable provisions of the 14 CFR 21 subpart D. Any recommendation on noise issues should consider harmonization with respect to corresponding JAR to the extent practicable. The FAA recommends that any proposed recommendations be coordinated among other working groups to ensure consistency in proposed regulatory language, advisory and guidance material, and any other collateral documents developed by the working groups.

ARAC should consider the current international standards and recommended practices, as issued under the International Civil Aviation Organization (ICAO), Annex 16, Volume 1, and its associated Technical Manual, as the basis for development of these harmonization proposals. ARAC should also consider recommending a process whereby subsequent ICAO Annex 16 changes are properly incorporated into JAR and FAR 36.

ARAC Acceptance of Revised Task

ARAC has accepted the revised task and has chosen to assign it to the FAR/JAR Harmonization Working Group for Subsonic Transport Category Large Airplanes and Subsonic Turbojet Powered Airplanes. The working group will serve as staff to ARAC to assist ARAC in the analysis of the assigned task. Working group recommendations must be reviewed and approved by ARAC. If ARAC accepts the working group's recommendations, it forwards them to the FAA as ARAC recommendations.

Working Group Activities

The FAR/JAR Harmonization Working Group for Subsonic Transport Category Large Airplanes and Subsonic Turbojet Powered Airplanes is expected to comply with the procedures adopted by ARAC. As part of the procedures, the working group is expected to:

(a) Recommend a work plan for completion of the task and subtasks, including the rationale supporting the plan, for consideration at the meeting of the ARAC to consider noise certification issues held following publication of this notice;

(b) Give a detailed conceptual presentation on the proposed recommendation to the ARAC before proceeding with the work stated in item (c) below;

(c) If considered appropriate, develop NPRM(s) proposing the revised rules for aircraft noise certification, a supporting economic and other required analyses, advisory and guidance material, and any other collateral documents the Working Group determines to be needed. Present these recommendations to the ARAC for further consideration and disposition; and

(d) Give a status report on the task at each meeting of the ARAC held to consider noise certification issues.

The Secretary of Transportation has determined that the formation and use of the ARAC are necessary and in the public interest, in connection with the performance of duties of the FAA. Meetings of the ARAC to consider noise certification issues will be open to the public, except as authorized by Section 10(d) of the Federal Advisory Committee Act. Meetings of the FAR/JAR Harmonization Working Group for Subsonic Transport Category Large Airplanes and Subsonic Turbojet Powered Airplanes will not be open to the public, except to the extent that individuals with an interest and expertise are selected to participate. No public announcement of Working Group meetings will be made.

Issued in Washington, DC, on October 10, 1995.

Paul R. Dykeman,

Assistant Executive Director for Noise Certification, Aviation Rulemaking Advisory Committee.

Aviation Rulemaking Advisory Committee; Noise Certification Issues—Revised Task

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of revised task assignment for the Aviation Rulemaking Advisory Committee.

SUMMARY: Notice is given of a change in the task assigned to and accepted by the Aviation Rulemaking Advisory Committee (ARAC). This notice informs the public of the activities of the ARAC.

FOR FURTHER INFORMATION CONTACT:

Mr. Paul R. Dykeman, Assistant Executive Director for Noise Certification, Deputy Director, Office of Environment and Energy (AEE-2), 800 Independence Avenue, SW., Washington, DC 20591, Telephone: (202) 267-3577; FAX: (202) 267-5594.

SUPPLEMENTARY INFORMATION: The Federal Aviation Administration (FAA) established an Aviation Rulemaking Advisory Committee (ARAC) (56 FR 2190, January 22, 1991; and 58 FR 9230, February 19, 1993) to provide advice and recommendations to the FAA Administrator, through the Associate Administrator for Regulation and Certification, on the full range of the FAA's rulemaking activities with respect to aviation-related issues. This includes obtaining advice and recommendations on the FAA's commitment to harmonize its Federal Aviation Regulations (FAR) and practices with its trading partners in Europe and Canada.

One area of the ARAC deals with noise certification issues. These issues involve the harmonization of part 36 of the Federal Aviation Regulations (14 CFR part 36) with Joint Aviation Requirements (JAR) part 36, their associated guidance material including equivalent procedures, and the interpretation of the regulations. The FAR/JAR Harmonization Working Group for Helicopters will forward recommendations to the ARAC, which will determine whether to forward them to the FAA.

The Revised Task

This notice is to inform the public that the FAA has revised a task previously assigned to ARAC. The revised task has been accepted by ARAC. The FAA has asked ARAC to provide advice and recommendation on the following revised task:

Specifically, the FAR/JAR Harmonization Working Group for Helicopters is charged with reviewing the applicable provisions of subparts A and H and appendices H and J of the 14 CFR part 36 and harmonizing them with the corresponding applicable provisions of JAR 36. The review should also include a review of the acoustical change provisions of the 14 CFR 21 subpart D. Any recommendation on

noise issues should consider harmonization with respect to corresponding JAR to the extent practicable. The FAA recommends that any proposed recommendations be coordinated among other working groups to ensure consistency in proposed regulatory language, advisory and guidance material, and any other collateral documents developed by the working groups.

ARAC should consider the current international standards and recommended practices, as issued under the International Civil Aviation Organization (ICAO), Annex 16, Volume 1, and its associated Technical Manual, as the basis for development of these harmonization proposals. ARAC should also consider recommending a process whereby subsequent ICAO Annex 16 changes are properly incorporated into JAR and FAR 36.

ARAC Acceptance of Revised Task

ARAC has accepted the revised task and has chose to assign it to the FAR/JAR Harmonization Working Group for Helicopters. The working group will serve as staff to ARAC to assist ARAC in the analysis of the assigned task. Working group recommendations must be reviewed and approved by ARAC. If ARAC accepts the working group's recommendations, it forwards them to the FAA as ARAC recommendations.

Working Group Activities

The FAR/JAR Harmonization Working Group for Helicopters is expected to comply with the procedures adopted by ARAC. As part of the procedures, the working group is expected to:

(a) Recommend a work plan for completion of the task and subtasks, including the rationale supporting the plan, for consideration at the meeting of the ARAC to consider noise certification issues held following publication of this notice;

(b) Give a detailed conceptual presentation on the proposed recommendation to the ARAC before proceeding with the work stated in item (c) below;

(c) If considered appropriate, develop NPRM(s) proposed the revised rules for aircraft noise certificate, a supporting economic and other required analyses, advisory and guidance material, and any other collateral documents the Working Group determines to be needed. Present these recommendations to the ARAC for further consideration and disposition; and

(d) Give a status report on the task at each meeting of the ARAC held to consider noise certification issues.
