SUPPLEMENTARY INFORMATION:

I. Background and Purpose

A. Introduction

Title V of the 1990 Clean Air Act Amendments (sections 501–507 of the Clean Air Act (“the Act”)), and implementing regulations at 40 Code of Federal Regulations (CFR) part 70, require that states develop and submit operating permits programs to EPA by November 15, 1993, and that EPA act to approve or disapprove each program within one year after receiving the submittal. The EPA’s program review occurs pursuant to section 502 of the Act and the part 70 regulations, which together outline criteria for approval or disapproval. Where a program substantially, but not fully, meets the requirements of part 70, EPA may grant the program interim approval for a period of up to two years. If EPA has not fully approved a program by two years after the November 15, 1993, date (or by the end of an interim program), it must establish and implement a Federal program.

On January 31, 1995, EPA proposed full approval of the operating permits program for LLCHD (60 FR 5883–87). Furthermore, on April 3, 1995, EPA proposed approval of delegation for 112(l) for LLCHD (60 FR 16829–30). Public comments were received on (60 FR 5883–87) which are addressed in section II of this notice. None were received on 60 FR 16829–30.

On March 7, 1995, EPA proposed full approval of the operating permits program for the state of Nebraska and city of Omaha (60 FR 12521–24). The
