

Approving Refund Methodology for 1994 Overcollections, 70 FERC ¶61,205. Pursuant to the FERC's February 22, 1995, order, member pipelines receiving refunds are required to make credits pro rata to all eligible firm customers and to file a refund report within 15 days of making such credits.

DOMAC states that it has no firm customers who would be eligible for such credits. DOMAC states that unlike other member pipelines, DOMAC does not pass through its GRI funding obligations to its firm customers and consequently no firm customer has borne these costs. Instead, DOMAC states that it has funded its obligations to GRI out of its own sales margin. DOMAC states that it will not therefore be crediting this refund to any of its firm customers.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E. Washington D.C. 20426, in accordance with 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before October 26, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
