BILLING CODE 6820-EP-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 301

[Docket No. 950106003; I.D. 102095A]

Pacific Halibut Fisheries; Close Area 2A to Non-treaty Commercial Fishing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason action.

SUMMARY: The Assistant Administrator for Fisheries, NOAA, on behalf of the International Pacific Halibut Commission (IPHC), publishes this inseason action pursuant to IPHC regulations approved by the U.S. Government to govern the Pacific halibut fishery. This action is intended to enhance the conservation of the Pacific halibut stock.

EFFECTIVE DATE: 6 p.m., local time, September 26, 1995 through December 31, 1995.

FOR FURTHER INFORMATION CONTACT: Steven Pennoyer, 907-586-7221; William W. Stelle, Jr., 206-526-6140; or Donald McCaughran, 206-634-1838.

SUPPLEMENTARY INFORMATION: The IPHC, under the Convention between the

United States of America and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea (signed at Ottawa, Ontario, on March 2, 1953), as amended by a Protocol Amending the Convention (signed at Washington, DC, on March 29, 1979), has issued this inseason action pursuant to IPHC regulations governing the Pacific halibut fishery. The regulations have been approved by NMFS (60 FR 14651, March 20, 1995). On behalf of the IPHC, this inseason action is published in the Federal Register to provide additional notice of its effectiveness, and to inform persons subject to the inseason action of the restrictions and requirements established therein.

Inseason Action

1995 Halibut Landing Report No. 16

Area 2A Non-treaty Commercial Halibut Fishery Closed

The IPHC estimates that the Area 2A catch limit of 105,000 lb (47.62 metric tons (mt)) was reached after the September 26 fishing period. This catch limit includes approximately 14,000 lb (6.35 mt) that was "rolled-over" from the incidental commercial catch of halibut allocated to the salmon troll fishery. Therefore, Area 2A is closed to commercial halibut fishing for the remainder of 1995.

Dated: October 23, 1995.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510-22-F

50 CFR Part 672

[Docket No. 950206041-5041-01; I.D. 102395B]

Groundfish of the Gulf of Alaska; Trawl Gear Directed Fishery for Groundfish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is closing the directed fishery for groundfish by vessels using

trawl gear in the Gulf of Alaska (GOA), except for directed fishing for pollock by vessels using pelagic trawl gear in those portions of the GOA that remain open to directed fishing for pollock. This action is necessary because the 1995 Pacific halibut prohibited species catch (PSC) limit for trawl gear in the GOA has been caught.

EFFECTIVE DATE: 12 noon, Alaska local time (A.l.t.), October 23, 1995, until 12 midnight, A.l.t., December 31, 1995.

FOR FURTHER INFORMATION CONTACT: Thomas Pearson, 907-486-6919.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the GOA exclusive economic zone is managed by NMFS according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

The Final 1995 Harvest Specifications of Groundfish for the GOA (60 FR 8470, February 14, 1995) established the 1995 Pacific halibut PSC limit for vessels using trawl gear at 2,000 metric tons (mt). The Director, Alaska Region, NMFS, has determined, in accordance with § 672.20(f)(3)(i), that vessels engaged in directed fishing for groundfish with trawl gear in the GOA have caught the 1995 Pacific halibut PSC limit. Therefore, NMFS is closing the directed fishery for groundfish by vessels using trawl gear in the GOA, except for directed fishing for pollock by vessels using pelagic trawl gear in those portions of the GOA that remain open to directed fishing for pollock.

Classification

This action is taken under 50 CFR 672.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 23, 1995.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.
