

titanium sponge to the United States during the period of review. If these preliminary results are adopted in our final results of review we will instruct U.S. customs to maintain the cash deposit rate of 83.96 percent, which is the rate established in the final results of the last administrative review of the antidumping finding on titanium sponge from the Union of Soviet Socialist Republics.

Interested parties are invited to comment on these preliminary results.

SUPPLEMENTARY INFORMATION:

Background

On August 28, 1968, the Department of the Treasury published an antidumping findings on titanium sponge from the Union of Soviet Socialist Republics (USSR) (33 FR 12138). In December 1991, the USSR divided into fifteen independent states. To conform to these changes, the Department changed the original antidumping finding into fifteen findings applicable to the Baltic states and the former Republics of the USSR (57 FR 36070, August 12, 1992).

On August 3, 1993, the Department published a notice of "Opportunity to Request an Administrative Review" (58 FR 41239) of the antidumping finding on titanium sponge from Russia. On August 27 and 30 1993, TIMET and OREMET, respectively, requested an administrative review. The Department initiated the review on September 30, 1993 (58 FR 51053). The Department initiated the review on September 30, 1993 (58 FR 51053), covering the period August 1, 1992, through July 31, 1993. The Department is conducting this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). Unless otherwise indicated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Scope of the Review

The merchandise covered by this review is titanium sponge from Russia. Titanium sponge is chiefly used for aerospace vehicles, specifically, in the construction of compressor blades and wheels, stator blades, rotors, and other parts in aircraft gas turbine engines.

Imports of titanium sponge are currently classifiable under the

harmonized tariff schedule (HTS) subheading 8108.10.50.10. The HTS subheading is provided for convenience and U.S. Customs purposes; our written description of the scope of this finding is dispositive.

This review covers four manufacturers/exporters of titanium sponge, VILS, VSMPO, TENEX, and AVISMA. The review period is August 1, 1992, through July 31, 1993.

Preliminary Results of Review

In response to the Department's request for U.S. sales information, VILS, TENEX, and VSMPO, reported that they did not export titanium sponge to the United States during the period of review. AVISMA reported that it produced and sold titanium sponge during the period of review but that it sold to unrelated intermediaries without knowledge of the ultimate destination of the merchandise. Because AVISMA did not have knowledge of the ultimate destination of the merchandise at the time of sale, AVISMA is a non-shipper for the purposes of this review. Accordingly, the effective cash deposit rate for Russian titanium sponge that entered the United States during the period of review will continue to be the rate from the most recent review, which is 83.96 percent.

Parties to the proceeding may request a hearing within 10 days of publication of this notice. Any hearing, if requested, will be held 44 days after the date of publication of this notice, or the first workday thereafter and will be limited to those issues raised in the case briefs and/or written comments. Case briefs and/or written comments from interested parties may be submitted not later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to the issues raised in the case briefs and comments, may be filed not later than 37 days after the date of publication. The Department will publish the final results of this administrative review, including the results of its analysis of any written comments or case briefs.

Furthermore, the following deposit requirement will be effective for all shipments of the subject merchandise, entered or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: the cash deposit rate for entries of titanium sponge from Russia will be that rate established in the final results of this administrative review.

These deposit requirements, when imposed, shall remain in effect until

publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: October 20, 1995.

Susan G. Esserman,

Assistant Secretary for Import Administration.
