#### Notice of Intent To Prepare an Environmental Impact Statement for Proposed Disposal and Reuse of Long Beach Naval Station, Long Beach, CA

Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969 as implemented by the Council on Environmental Quality regulations (40 CFR Parts 1500-1508), the Department of the Navy announces its intent to prepare an Environmental Impact Statement (EIS) to evaluate the environmental effects of the disposal and reuse of Naval Station (NAVSTA) Long Beach, Long Beach, California.

In accordance with the Defense Base Closure and Realignment Act (Pub. L.

101-510) of 1990, as implemented by the 1991 Base Closure and Realignment process, the Navy closed NAVSTA Long Beach on 30 September 1994.

Operations conducted at NAVSTA Long Beach are currently relocating to other naval stations located in the continental United States. The proposed action involves the disposal of land, buildings, and infrastructure of NAVSTA Long Beach for subsequent reuse. The property currently occupied by the station, including the Mole, totals approximately 250 acres. The Naval station is located on Terminal Island within the Los Angeles and Long Beach Harbors along Seaside Avenue/Ocean Boulevard.

The Navy intends to analyze the environmental effects of the disposal of NAVSTA Long Beach based on potential reasonable reuses of the property, taking into account uses identified by the City of Long Beach and as determined during the EIS scoping process. One potential reuse of NAVSTA Long Beach that has been identified includes development of a cargo handling facility comprised of a 130-acre container terminal with a 37-acre intermodal railyard. This reuse would require demolition of the existing Roosevelt Base Historic District and removing all structures, landscaping, and infrastructure.

Major environmental issues that will be addressed in the EIS include, but are not limited to, air quality, water quality, endangered species, cultural resources, traffic, and socioeconomic impacts.

The Navy will initiate a scoping process for the purpose of determining the scope of issues to be addressed and for identifying potential reuse alternatives. A public scoping meeting is scheduled for Thursday, November 16, 1995, beginning at 7:00 p.m. at the Long Beach Public Library, Main Branch, 101 Pacific Avenue, Long Beach, California.

A brief presentation will precede request for public comment. Navy representatives will be available at this meeting to receive comments from the public regarding issues of concern to the public. It is important that federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed during the preparation of the EIS. In the interest of available time, each speaker will be asked to limit their oral comments to five minutes.

Agencies and the public are invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the public meeting. To be most helpful, scoping comments should clearly describe specific issues

or topics which the commenter believes the EIS should address. Written comments regarding this proposed action should be postmarked no later than 30 November 1995, to Southwest Division, Naval Facilities Engineering Command, 1220 Pacific Highway, San Diego, CA 92132-5190 (Attention: Ms. Jo Ellen Anderson, Code 232JA), telephone (619) 532-3912, fax (619) 532-3824.

Dated: October 25, 1995.
