NUCLEAR REGULATORY COMMISSION

10 CFR Part 110

RIN 3150-AD36

Import and Export of Radioactive Waste: Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule: correction.

SUMMARY: In the Federal Register on July 21, 1995 (60 FR 37556), the Nuclear Regulatory Commission (NRC) issued a final rule to establish specific licensing requirements for the import and export of radioactive waste and to clarify other import and export requirements. As part of the final rule, certain sections of NRC's export regulations were redesignated. However, in § 110.82, the amendment necessary to change a reference to reflect a redesignated section was inadvertently omitted. As a result, § 110.82 now contains an erroneous reference. This action is necessary to correct this inconsistent reference and does not result in any substantive change.

EFFECTIVE DATE: August 21, 1995.

FOR FURTHER INFORMATION CONTACT: Ronald Hauber, Office of International Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Telephone (301) 415-2344.

FEDERAL RESERVE SYSTEM

12 CFR Parts 207, 220, 221 and 224

[Regulations G, T, U and X]

Securities Credit Transactions; List of Marginable OTC Stocks; List of Foreign Margin Stocks

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule; determination of applicability of regulations.

SUMMARY: The List of Marginable OTC Stocks (OTC List) is composed of stocks

traded over-the-counter (OTC) in the United States that have been determined by the Board of Governors of the Federal Reserve System to be subject to the margin requirements under certain Federal Reserve regulations. The List of Foreign Margin Stocks (Foreign List) is composed of foreign equity securities that have met the Board's eligibility criteria under Regulation T. The OTC List and the Foreign List are published four times a year by the Board. This document sets forth additions to and deletions from the previous OTC List and Foreign List.

EFFECTIVE DATE: November 13, 1995.

FOR FURTHER INFORMATION CONTACT: Peggy Wolffrum, Securities Regulation Analyst, Division of Banking Supervision and Regulation, (202) 452-2781, Board of Governors of the Federal Reserve System, Washington, DC 20551. For the hearing impaired *only*, contact Dorothea Thompson, Telecommunications Device for the Deaf (TDD) at (202) 452-3544.

SUPPLEMENTARY INFORMATION: Listed below are additions to and deletions from the OTC List, which was last published on July 31, 1995 (60 FR 38948), and became effective August 14, 1995. A copy of the complete OTC List is available from the Federal Reserve Banks.

The OTC List includes those stocks that meet the criteria in Regulations G, T and U (12 CFR Parts 207, 220 and 221, respectively). This determination also affects the applicability of Regulation X (12 CFR Part 224). These stocks have the degree of national investor interest, the depth and breadth of market, and the availability of information respecting the stock and its issuer to warrant regulation in the same fashion as exchange-traded securities. The OTC List also includes any OTC stock designated for trading in the national market system (NMS security) under rules approved by the Securities and Exchange Commission (SEC). Additional OTC stocks may be designated as NMS securities in the interim between the Board's quarterly publications. They will become automatically marginable upon the effective date of their NMS designation. The names of these stocks are available at the SEC and at the National Association of Securities Dealers, Inc. and will be incorporated into the Board's next quarterly publication of the OTC List.

Also listed below is the one addition to and one deletion from the Board's Foreign List, which was last published on July 31, 1995 (60 FR 38948), and which became effective August 14,

1995. The Foreign List includes those foreign securities that meet the criteria in section 220.17 of Regulation T and are eligible for margin treatment at broker-dealers on the same basis as domestic margin securities. A copy of the complete Foreign List is available from the Federal Reserve Banks.

Public Comment and Deferred Effective Date

The requirements of 5 U.S.C. 553 with respect to notice and public participation were not followed in connection with the issuance of this amendment due to the objective character of the criteria for inclusion and continued inclusion on the Lists specified in 12 CFR 207.6 (a) and (b), 220.17 (a), (b), (c) and (d), and 221.7 (a) and (b). No additional useful information would be gained by public participation. The full requirements of 5 U.S.C. 553 with respect to deferred effective date have not been followed in connection with the issuance of this amendment because the Board finds that it is in the public interest to facilitate investment and credit decisions based in whole or in part upon the composition of these Lists as soon as possible. The Board has responded to a request by the public and allowed approximately a two-week delay before the Lists are effective.

[Docket No. 93-CE-51-AD; Amendment 39-9415; AD 95-22-07]

Airworthiness Directives; de Havilland DHC-6 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes Airworthiness Directive (AD) 83-26-05 and AD 86-15-08, which currently require repetitively inspecting the horizontal stabilizer attachment fittings for cracks or looseness on certain de Havilland DHC-6 series airplanes, and, if a cracked or loose part is found, modifying the horizontal stabilizer. This action retains the repetitive inspection requirement of the existing AD's, requires incorporating an improved modification design as terminating action for the repetitive inspections, and making these inspection-terminating modifications optional for other affected airplanes. Reports of loose horizontal stabilizer attachment fittings on airplanes incorporating the inspection-terminating modifications required by AD 83-26-05 prompted this action. The actions specified by this AD are intended to prevent separation of the

horizontal stabilizer from the airplane caused by a cracked attachment fitting, and subsequent loss of control of the airplane.

DATES: Effective December 27, 1995.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of December 27, 1995.

ADDRESSES: Service information that applies to this AD may be obtained from de Havilland, Inc., 123 Garratt Boulevard, Downsview, Ontario, Canada, M3K 1Y5. SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to certain de Havilland DHC-6 series airplanes was published in the Federal Register on November 23, 1994 (59 FR 60337). The action proposed to supersede both AD 83-26-05 and AD 86-15-08 with a new AD that would require repetitively inspecting the horizontal stabilizer attachment fittings for cracks; and, if a cracked fitting is found, replacing with a serviceable fitting, part number (P/N) C6TPM1049-27 (forward fitting) or C6TPM1050-27 (rear fitting), and incorporating Modifications 6/1890, 6/1891, and 6/1892. The proposed action would also require the eventual incorporation of the above-referenced modifications for airplanes that have Modifications 6/1808 and 6/1809 incorporated. Accomplishment of the proposed inspections would be in accordance with de Havilland Service Bulletin (SB) No. 6/438, Revision D, dated March 28, 1986. Accomplishment of the proposed modifications would be in accordance with de Havilland SB 6/513, dated October 25, 1991.

Interested persons have been afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.
