threshold, the Secretary is targeting those LEAs in which LEP students constitute a major portion of the LEAs' programs and operations. The Secretary chose to use either a number or a percentage threshold in order to include small and large school districts with significant concentrations of LEP students. If the Secretary had used only a percentage threshold, some of the larger districts would be excluded from participating in the program even though they enroll significant numbers of LEP students. On the other hand, if the Secretary had used only a numerical threshold, some smaller districts would be excluded from participating in the program even though a significant percentage of their student enrollment consists of LEP students. Using the 1,000 or 25 percent threshold, the Department estimates that approximately 450 LEAs are eligible to participate under this program. This estimate is based on data from the Descriptive Study of Services to LEP Students conducted by Development Associates, Inc., in 1993.

On March 2, 1995 the Secretary published a notice of proposed priority for this program in the Federal Register (60 FR 11862).

Note: This notice of final priority does not solicit applications. A competition under this program will not be held in FY 1996. If a competition is held in a subsequent year, a notice inviting applications under that competition will be published in the Federal Register at that time.

Analysis of Comments and Changes

In response to the Secretary's invitation in the notice of proposed priority, two parties submitted comments. An analysis of the substantive comments follows. The Secretary has made no changes in this priority since publication of the notice of proposed priority.

Comment: One commenter stated that the priority needed to clarify whether or not LEAs may collaborate with one another to participate in the program.

Discussion: The statutory authority for this program provides that LEAs may collaborate with one another in carrying out a Systemwide Improvement Grants project. The priority makes clear, however, that each LEA served under a Systemwide Improvement Grants project must meet either the numerical or the percentage threshold.

Changes: None.

Comment: One commenter expressed concern that States with small populations and rural districts would be unable to participate in the Systemwide Improvement Grants Program because they could not reach the student

threshold. The commenter maintained that States that receive large influxes of immigrants are less likely to need Federal assistance because of existing services or resources for their LEP children and youth or because they have been past recipients of Federal assistance. The commenter also noted that small States must serve LEP students, but may not have existing services or the resources necessary to serve them

Discussion: Because the Systemwide Improvement Grants Program is required by its authorizing statute to serve LEP children and youth in LEAs with significant concentrations of these children and youth, the Secretary, in order to implement the program, had to determine what constitutes a "significant concentration." If the Secretary used only a number to measure a significant concentration, LEAs with small enrollments could be excluded from participation in the program even though the percentage of LEP students in those school districts was high. By using a percentage as well as a numerical measurement, the Secretary has made it possible for LEAs with small student enrollments, but a significant percentage of LEP students, to meet the priority. The Secretary believes that a 25 percent threshold targets those LEAs in which the number of LEP children and youth may not be large but nonetheless constitutes a major portion of the enrollment.

Changes: None.

Priority

Under 34 CFR 75.105(c)(3) and section 7115(a) of the Act, the Secretary gives an absolute preference to applications that meet the following priority. The Secretary funds under this competition only applications that meet this absolute priority:

Projects that serve only LEAs in which the number of LEP students, in each LEA served, is at least 1,000 or at least 25 percent of the total student enrollment.

Intergovernmental review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR Part 79. The objective of the Executive order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, this document is intended to provide early

notification of the Department's specific plans and actions for this program.

[CFDA No.: 84.023]

Office of Special Education and Rehabilitative Services; Research in Education of Individuals With Disabilities Program

ACTION: Extension Notice.

PURPOSE: On August 10, 1995, the Secretary published in the Federal Register (60 FR 40956) a combined application notice (CAN) inviting applications for new awards for fiscal year 1996 under a number of the Department's direct grant and fellowship programs. Included in the CAN were three competitions under the Research in Education of Individuals with Disabilities Program. The purpose of this notice is to revise the closing date for one of those competitions. The closing date for the Field-Initiated Research Projects competition, CFDA No. 84.023C, has been extended to March 29, 1996. This action is taken in consideration of the current proposals in the Congress that either eliminate or substantially reduce funding for the program. Extending the closing date for this competition allows the Department and potential applicants time to consider further developments related to the fiscal year 1996 appropriation.
