Management prescriptions for the proposed ACECs vary by alternative and are described in the DRMP/DEIS.

Wild and Scenic Rivers

In Alternative A (No Action Alternative), BLM would not make a determination as to the suitability of the eligible river segments. In Alternative B, no eligible river segments would be

recommended as suitable for Congressional designation into the National Wild and Scenic River System. In Alternative C (Preferred Alternative), six segments, totalling 49.81 public land river miles, could be determined suitable. In Alternative D, all of the eligible river segments could be determined suitable. The following table

outlines the river segments, totalling 62.63 public land river miles, that were determined eligible for Congressional designation. The table also identifies, by alternative, which eligible river segments could be determined suitable and recommended to Congress for designation into the NWSRS.
