Union Electric Company; Notice of Availability of Environmental Assessment

October 26, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's Regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47910), the Office of Hydropower Licensing (OHL) reviewed an application for dredging on the Lake of the Ozarks at the Osage Project. The applicant proposes to excavate approximately 2,675 cy of material for the purpose of providing boat access to 17 existing boat docks.

The proposed excavation will occur on project lands and waters in Benton County, Missouri. The primary purpose of the excavation activity is to provide boat access to project waters for private recreational use. The staff prepared an Environmental Assessment (EA) for the actions. In the EA, staff concludes that approval of the non-profit use of project lands would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Reference and Information Center, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.
