

The proposed excavation will occur on project lands and waters in Benton County, Missouri. The primary purpose of the excavation activity is to provide boat access to project waters for private recreational use. The staff prepared an Environmental Assessment (EA) for the actions. In the EA, staff concludes that approval of the non-profit use of project lands would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Reference and Information Center, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.
