

The proposed excavation will occur on project lands and waters in Benton County, Missouri. The primary purpose of the excavation activity is to provide boat access to project waters for private recreational use. The staff prepared an Environmental Assessment (EA) for the actions. In the EA, staff concludes that approval of the non-profit use of project lands would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the EA are available for review in the Reference and Information Center, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Equitable Storage Company; Notice of Petition for Rate Approval

October 26, 1995.

Take notice that on October 17, 1995, Equitable Storage Company (Equitable) filed pursuant to Section 284.123(b)(2) of the Commission's Regulations, a petition for rate approval requesting that the Commission approve as fair and equitable, market-based rates for firm and interruptible storage services. Equitable states that the rates for firm and interruptible storage services will be negotiated between Equitable and the various shippers. Equitable intends to conduct an open season for the initial offering to commence on November 13, 1995, and continue through November 24, 1995.

Equitable states that it is an intrastate pipeline within the meaning of Section 2(16) of the NGPA. Equitable is the developer and sole owner of the Jefferson Island Underground Gas Storage Facility (Jefferson Island) located in Iberia and Vermilion Parishes, Louisiana, which is the subject of its petition. Equitable will commit all or a portion of its Jefferson Island storage capacity to the performance of storage services for third parties, including parties utilizing these services in support of intrastate and interstate commerce. Pursuant to Section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the filing date, the rate will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150-day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene in accordance with Sections 385.211 and 385.214 of the Commission's Rules of Practice and Procedures.
