SUPPLEMENTARY INFORMATION: Cortina Integrated Waste Management, Inc. proposes to lease 443 acres of the Cortina Indian Rancheria for the purpose of constructing and operating an integrated waste management facility for recycling or disposal of a variety of non-hazardous wastes. The project will be required to meet all applicable environmental standards and regulations.

The proposed project includes a 200-acre sanitary landfill, a non-source separated materials recovery facility, an organic waste composting area, and a petroleum-contaminated (PC) soils bioremediation facility. The facility would receive daily shipments of municipal solid waste, compostable organic wastes, and PC soils from nearby counties. Approximately 400 to 1,500 tons per day of waste materials would be delivered to the facility by truck. Offsite roadway improvements would be necessary.

The Cortina Indian Rancheria is located in the foothills that form the west side of the Sacramento Valley in southwestern Colusa County approximately 50 miles northwest of the city of Sacramento. The Rancheria is in a sparsely populated area with cattle grazing being the predominant land use in the vicinity. The project site has moderately to steeply sloping terrain covered with oak woodland and chaparral and is currently undeveloped.

The EIS will assess alternatives to the proposed project, including: (1) A smaller project; (2) a project without composting, recycling, or PC soils remediation; and (3) no project. The EIS will address numerous environmental issues, including: geology, topography, soils, water resources, air quality, living resources, cultural resources, traffic, land use, visual resources, socioeconomic, public health and safety, and noise. The range of issues addressed may be expanded based on comments received during the scoping process.
