BILLING CODE 4310-33-M**National Park Service****Notice of Availability of the Final
General Management Plan/
Development Concept Plans/
Environmental Impact Statement for
the Timucuan Ecological and Historic
Preserve, Florida**

SUMMARY: This notice announces the availability of the Final General Management Plan/Development Concept Plans/Environmental Impact Statement (Final GMP/EIS) for the Timucuan Ecological and Historic Preserve. The Final GMP/EIS follows the abbreviated format as described under National Environmental Policy Act regulations at 40 CFR 1503.4(c). The abbreviated format has been used because the changes to the Draft GMP/EIS (distributed February 1995) are minor and confined primarily to factual corrections, which do not modify the analysis. The Draft and Final GMP/EISs, together, describe the final plan, its alternatives, all significant

environmental impacts, and the public comments that have been received and evaluated.

DATES: The Final GMP/EIS will be on public review until December 4. Any review comments must be postmarked no later than December 4, and addressed to the Superintendent, Timucuan Ecological and Historic Preserve, 13165 Mt. Pleasant Road, Jacksonville, Florida 32225.

FOR FURTHER INFORMATION CONTACT: Superintendent, Timucuan Ecological and Historic Preserve, 13165 Mt. Pleasant Road, Jacksonville, Florida 32225, Telephone: (904) 221-5568.

Copies of the Final GMP/EIS are available for review at the preserve. A limited number of copies are available on request from the Superintendent at the above address.

SUPPLEMENTARY INFORMATION: The material contained in the Final GMP/EIS for the Timucuan Ecological and Historic Preserve is to be integrated with the Draft GMP/EIS. This integrated document (i.e., combined Draft and Final GMP/EISs) provides management guidance for concerns of the preserve related to protection of the important ecosystem; impacts on plant and animal species, especially those listed as threatened, endangered, or of special concern; threats to important cultural resources; landownership or land control and land uses; interpretation of the preserve's diverse resources and unique ecology for residents and visitors; and appropriate types and levels of use by humans for residing, working, commuting, recreating, learning, hunting, and fishing.

Four alternative concepts are presented for future management and use of the preserve. The alternatives reflect a range of different strategies for meeting the purposes of the preserve. These strategies differ in the level of commitment required of the citizens of Jacksonville, landowners, State and local governments, the National Park Service, and other Federal agencies to protect preserve resources. The alternatives also differ in the relative priority given to protection and interpretation of a few known cultural resources and the broader setting of the preserve. The degree to which preserve purposes and management can be fulfilled in each alternative is described.

In all alternatives, the National Park Service would make development decisions at NPS-owned sites. At a minimum, modifications would be made at Fort Caroline National Memorial, the Theodore Roosevelt area, and Zephaniah Kingsley Plantation. Development Concept Plans for these

areas are presented and discussed. These concept plans focus on visitor experience/public use and physical development needs.

Dated: October 23, 1995.

Acting Field Director, Southeast Area.
