

Comments may also address the adequacy of the Draft EIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.8 in addressing these points.

In addition, Federal court decisions have established that reviewers of Draft EIS statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and concerns. *Vermont Yankee Nuclear Power Corp v. NRDC*, 435 U.S. 519, 553, (1978). Environmental objections that could have been raised at the draft state may be waived if not raised until after completion of the Final EIS. *City of Angoon v. Hodel, Harris*, (9th Circuit, 1986), *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). The reason for this is to ensure that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the Final EIS.

## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board

[Docket 62-95]

#### Foreign-Trade Zone 104, Savannah, GA; Proposed Foreign-Trade Subzone; CITGO Asphalt Refinery Company, (Crude Oil Refinery), Savannah, GA

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Savannah Airport Commission, grantee of FTZ 104, requesting special-purpose subzone status for the crude oil refinery of CITGO Asphalt Refinery Company, located in the Savannah, Georgia, area. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 20, 1995.

The refinery (28,000 barrels per day capacity; 45 employees) is located on a 100-acre site at Foundation Drive on the Savannah River in Chatham County, some 3 miles west of Savannah, Georgia. It is used to produce asphalt and refinery feedstocks, including gas, oil, distillate/fuel oil, kerosene, naphthas, and diesel oil. All of the crude oil (some 97 percent of inputs) is sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on asphalt (duty-free). The duty on crude oil ranges from 5.25¢ to 10.5¢/barrel.

The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 2, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to January 16, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce District Office, 120 Barnard St., Room A-107, Savannah, Georgia 31401  
Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW Washington, DC 20230
