Clean Air Act Approval and Promulgation of State Implementation Plans; Prevention of Significant Deterioration; Designation of Areas for Air Quality Planning Purposes; Montana, North Dakota, South Dakota, Utah, and Wyoming

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed rulemaking.

SUMMARY: In this document, the EPA is proposing approval of revisions to the State Implementation Plans (SIPs) submitted by the States of Montana, North Dakota, Utah, and Wyoming. The submittals included revisions to the

prevention of significant deterioration (PSD) permitting rules of these States mainly to address the replacement of the total suspended particulate (TSP) increments with increments for PM-10 (particulate matter 10 micrometers or less in diameter), but also to address other changes in the Federal PSD permitting regulations and to make other minor revisions. EPA is also proposing to delete the TSP area designation tables and to revise and/or create PM-10 area designation tables in 40 CFR part 81 for these States as well as for the State of South Dakota (which has been delegated authority to implement the Federal PSD regulations in 40 CFR 52.21). In the final rules section of this Federal Register, the EPA is acting on the States' SIP submittals in a direct final rule without prior proposal because the Agency views these submittals as noncontroversial and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, then the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this documents should do so at this time.

DATES: Comments on this proposed action must be received in writing by December 4, 1995.

ADDRESSES: Written comments should be addressed to Vicki Stamper, 8ART-AP, at the Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, Colorado 80202-2466. Copies of the documents relevant to this proposed rule are available for public inspection during normal business hours at the following locations: Air Programs Branch, Environmental Protection Agency, Region VIII, 999 18th Street, suite 500, Denver, Colorado 80202-2405; Montana Air Quality Division, Department of Health and Environmental Sciences, 836 Front Street, P.O. 47 CFR Part 73

[MM Docket No. 95-162, RM-8714]

Radio Broadcasting Services; Wellsville, NY

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Erin Communications, Inc., seeking the substitution of Channel 278A for Channel 228A at Wellsville, NY, and the modification of Station WJQZ(FM)'s license accordingly. The substitution of channels could enable Station

WJQZ(FM) to operate with full Class A facilities of 6 kW instead of its present 3 kW. Channel 278A can be allotted to Wellsville in compliance with the Commission's minimum distance separation requirements with a site restriction of 8.7 kilometers (5.4 miles) southwest, at coordinates 42-13-24 NL; 78-00-34 WL. Canadian concurrence in the allotment is required since Wellsville is located within 320 kilometers (200 miles) of the U.S.-Canadian border. The Commission will not accept competing expressions of interest in use of Channel 278A at Wellsville since the procedures set forth in 1.420(g) of the Commission's Rules do not apply in this case as the Commission generally considers channels of the same class to be equivalent.

DATES: Comments must be filed on or before December 21, 1995, and reply comments on or before January 5, 1996.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.
