Board of Scientific Counselors, National Institute for Occupational Safety and Health: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting.

Name: Board of Scientific Counselors, National Institute for Occupational Safety and Health (BSC, NIOSH).
Times and Dates: 1 p.m.-5 p.m., November 20, 1995; 9 a.m.-12 noon, November 21, 1995.
Place: The Washington Court Hotel, Ballroom East, 525 New Jersey Avenue NW., Washington, DC 20001.
Status: Open—1 p.m.-5 p.m., November 20, 1995; Closed—9 a.m.-9:20 a.m., November 21, 1995; Open—9:20 a.m.-12 noon, November 21, 1995.

Purpose: The Board reviews research activities to provide guidance on the quality, timeliness, and efficacy of the Institute's programs.

Matters to be Discussed: Agenda items include a report from the Director of NIOSH, an update on the National Occupational Research Agenda, NIOSH Agriculture Program, a legislative report, a report on workplace violence, a report from the National Foundation for the Centers for Disease Control and Prevention, Inc., an evaluation of the construction program, and future activities of the Board.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Richard A. Lemen, Ph.D., Executive Secretary, BSC, NIOSH, and Deputy Director, NIOSH, CDC, 1600 Clifton Road NE., Mailstop D-35, Atlanta, Georgia 30333, telephone 404/639-3773.

Dated: October 30, 1995.
 Carolyn J. Russell,
Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-19-M

**National Institutes of Health
 Proposed Data Collection Available for Public Comment**

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the

National Institutes of Health (NIH), National Cancer Institute (NCI) will publish periodic summaries of proposed projects. To request more information on the proposed project, call Jeffery P. Struewing, M.D., Senior Research Investigator, at (301) 496-4375.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Jeffery P. Struewing, M.D. National Cancer Institute, Building EPN, Room 439, 6130 Executive Blvd MSC 7372, Bethesda, MD 20892-7372. Written comments should be received by January 2, 1996.

Proposed Project: Familial Cancer and the BRCA1 gene—NEW—This research study will determine how common a particular alteration in the BRCA1 gene occurs in Jewish individuals, and what the risk of cancer is in individuals who carry this alteration. With the assistance of Jewish community leaders in the Washington, D.C. area, Jewish volunteers will be recruited for the study. In order to determine how representative the volunteers are, a random sample will also be obtained from the Washington area. Jewish individuals and a portion of non-Jewish individuals will be asked to complete the questionnaire. The questionnaire will include a brief personal medical history, and a detailed family history of cancer. Participants will be notified of the overall study results, which may include recommendations about genetic testing and the availability of testing programs.

Number of respondents	Number of responses per individual	Average burden (hours)
7700	1	.33

Philip D. Amoruso,
NCI Executive Officer.

National Institute of Environmental Health Sciences; Division of Intramural Research; Proposed Data Collection Available for Public Comment and Recommendation

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Institute of Environmental Health Sciences (NIEHS) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, call the NIEHS Project Clearance Liaison, at (919) 541-5047.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Effects of Chronic Occupational Exposure to Pesticides on Neurological Function in Farm workers—New—A cross-sectional study will be conducted of 147 farmworkers exposed to pesticides and 179 unexposed control subjects with other jobs. Pesticide exposure will be evaluated with a questionnaire that collects information on general work history, work with pesticides, and work practices. Neurological function will be assessed with a neurobehavioral test battery and with quantitative tests of somatosensory function, equilibrium, and tremor. The data collected in this study will elucidate the association between chronic occupational exposure to pesticides and neurological dysfunction. Burden estimates are as follows:

Number of respondents	Number of responses per respondent	Average burden per response (hours)
147 farmworkers	1.92	1.14
179 control subjects	1.92	1.14
