DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 641

[Docket No. 94113-4354; I.D. 103095C]

Reef Fish Fishery of the Gulf of Mexico; Red Snapper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Reopening of a fishery.

SUMMARY: NMFS announces the period during which the commercial fishery for red snapper in the exclusive economic zone (EEZ) of the Gulf of Mexico is reopened. Reopening of the fishery is necessary, because the 1995 annual commercial quota for red snapper has not been taken. The fishery is reopened for a period of 36 hours.

EFFECTIVE DATE: Reopening of the commercial red snapper fishery is effective at 12:01 a.m., local time, November 1, 1995, through 12, noon, local time, November 2, 1995.

FOR FURTHER INFORMATION CONTACT: Robert Sadler or Michael Justen, 813– 570–5305.

SUPPLEMENTARY INFORMATION: The reef fish fishery of the Gulf of Mexico is managed under the Fishery

Management Plan for the Reef Fish Fishery of the Gulf of Mexico (FMP). The FMP was prepared by the Gulf of Mexico Fishery Management Council and is implemented through regulations at 50 CFR part 641 under the authority of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*).

On October 31, 1995, NMFS published an announcement proposing that the commercial fishery for red snapper in the EEZ of the Gulf of Mexico be reopened for a period of 36 hours, because the annual commercial quota for red snapper had not been taken. The background and rationale for this action and the basis for the selection of the specific dates of the reopening were contained in that announcement and are not repeated here.

Based on projected weather conditions, the Southeast Region, NMFS, selected October 30 and 31, 1995, for the reopened period, and an announcement of those dates was filed with the Office of the Federal Register on October 27, 1995. However, weather conditions in much of the Gulf of Mexico deteriorated significantly on October 29. The U.S. Coast Guard advised NMFS that Gulf weather conditions as of October 30 were unsafe for fishing operations, and recommended a 48 hour delay in the fishery reopening. Accordingly, the reopening of the commercial fishery for red snapper has been postponed for 48 hours for vessel safety reasons. The commercial fishery for red snapper in

the EEZ of the Gulf of Mexico is reopened for the period specified (see EFFECTIVE DATE).

During the reopening, a vessel with a red snapper endorsement on its reef fish permit may not land in any day red snapper in excess of 2,000 lb (907 kg) and other permitted vessels may not land in any day red snapper in excess of 200 lb (91 kg).

Classification

This action is taken under 50 CFR 641.26 and is exempt from review under E.O. 12866.

Dated: October 31, 1995.

Richard W. Surdi,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service. [FR Doc. 95–27327 Filed 10–31–95; 12:53 pm]
