**50 CFR Part 641**

[Docket No. 94113-4354; I.D. 103095C]

**Reef Fish Fishery of the Gulf of Mexico; Red Snapper**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Reopening of a fishery.

**SUMMARY:** NMFS announces the period during which the commercial fishery for red snapper in the exclusive economic zone (EEZ) of the Gulf of Mexico is reopened. Reopening of the fishery is necessary, because the 1995 annual commercial quota for red snapper has not been taken. The fishery is reopened for a period of 36 hours.

**EFFECTIVE DATE:** Reopening of the commercial red snapper fishery is effective at 12:01 a.m., local time, November 1, 1995, through 12, noon, local time, November 2, 1995.

**FOR FURTHER INFORMATION CONTACT:** Robert Sadler or Michael Justen, 813-570-5305.

**SUPPLEMENTARY INFORMATION:** The reef fish fishery of the Gulf of Mexico is managed under the Fishery

Management Plan for the Reef Fish Fishery of the Gulf of Mexico (FMP). The FMP was prepared by the Gulf of Mexico Fishery Management Council and is implemented through regulations at 50 CFR part 641 under the authority of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*).

On October 31, 1995, NMFS published an announcement proposing that the commercial fishery for red snapper in the EEZ of the Gulf of Mexico be reopened for a period of 36 hours, because the annual commercial quota for red snapper had not been taken. The background and rationale for this action and the basis for the selection of the specific dates of the reopening were contained in that announcement and are not repeated here.

Based on projected weather conditions, the Southeast Region, NMFS, selected October 30 and 31, 1995, for the reopened period, and an announcement of those dates was filed with the Office of the Federal Register on October 27, 1995. However, weather conditions in much of the Gulf of Mexico deteriorated significantly on October 29. The U.S. Coast Guard advised NMFS that Gulf weather conditions as of October 30 were unsafe for fishing operations, and recommended a 48 hour delay in the fishery reopening. Accordingly, the reopening of the commercial fishery for red snapper has been postponed for 48 hours for vessel safety reasons. The commercial fishery for red snapper in

the EEZ of the Gulf of Mexico is reopened for the period specified (see **EFFECTIVE DATE**).

During the reopening, a vessel with a red snapper endorsement on its reef fish permit may not land in any day red snapper in excess of 2,000 lb (907 kg) and other permitted vessels may not land in any day red snapper in excess of 200 lb (91 kg).

**Classification**

This action is taken under 50 CFR 641.26 and is exempt from review under E.O. 12866.

Dated: October 31, 1995.

Richard W. Surdi,

*Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.*

[Docket No. 950206040-5040-01; I.D. 103095E]

**Groundfish of the Bering Sea and Aleutian Islands Area; Pacific Ocean Perch in the Bering Sea Subarea**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is prohibiting retention of Pacific ocean perch in the Bering Sea

subarea of the Bering Sea and Aleutian Islands management area (BSAI). NMFS is requiring that catches of Pacific ocean perch in the Bering Sea subarea be treated in the same manner as prohibited species and discarded at sea with a minimum of injury. This action is necessary because the Pacific ocean perch total allowable catch (TAC) in the BSAI has been caught.

**EFFECTIVE DATE:** 12 noon, Alaska local time (A.l.t.), October 31, 1995, until 12 midnight, A.l.t., December 31, 1995.

**FOR FURTHER INFORMATION CONTACT:** Andrew N. Smoker, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** The groundfish fishery in the BSAI exclusive economic zone is managed by the NMFS according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

In accordance with § 675.20 (a)(7)(ii), the Pacific ocean perch TAC for the Bering Sea subarea was established by the Final 1995 Harvest Specifications of Groundfish (60 FR 8479, February 14, 1995), and increased by an apportionment from the reserve (60 FR 32278, June 21, 1995) to 1,850 metric tons (mt).

The Director, Alaska Region, NMFS, has determined, in accordance with § 675.20(a)(9), that the TAC for Pacific ocean perch in the Bering Sea subarea has been reached. Therefore, NMFS is requiring that further catches of Pacific ocean perch in the Bering Sea subarea be treated as prohibited species in accordance with § 675.20(c).

#### Classification

This action is taken under 50 CFR 675.20 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 31, 1995.

Richard W. Surdi,

*Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.*

**BILLING CODE 3510-22-F**

#### 50 CFR Part 675

[Docket No. 950206040-5040-01; I.D. 103095D]

#### Groundfish of the Bering Sea and Aleutian Islands Area; Rockfish by Vessels Using Trawl Gear in the Bering Sea and Aleutian Islands Management Area

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is closing the directed fishery for rockfish species of the genera *Sebastes* and *Sebastolobus* by vessels using trawl gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 1995 prohibited species bycatch mortality allowance of Pacific halibut specified for the trawl rockfish fishery in the BSAI.

**EFFECTIVE DATE:** 12 noon, Alaska local time (A.l.t.), October 31, 1995, until 12 midnight, December 31, 1995.

**FOR FURTHER INFORMATION CONTACT:** Andrew N. Smoker, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** The groundfish fishery in the BSAI exclusive economic zone is managed by NMFS according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

The 1995 bycatch mortality allowance of Pacific halibut for the BSAI trawl rockfish fishery, which is defined at § 675.21(b)(1)(iii)(D), was established as 110 metric tons (mt) by the Final 1995 Harvest Specifications of Groundfish (60 FR 8479, February 14, 1995).

The Director, Alaska Region, NMFS, has determined, in accordance with § 675.21(c)(1)(iii), that the 1995 apportionment of the Pacific halibut bycatch mortality allowance for the trawl rockfish fishery has been caught. Therefore, NMFS is prohibiting directed fishing for rockfish species of the genera *Sebastes* and *Sebastolobus* by vessels using trawl gear in the BSAI.

Maximum retainable bycatch amounts for applicable gear types may be found in the regulations at § 675.20(h).

#### Classification
