

NEEI now seeks to extend, through December 31, 1998, its authority to enter into Swap Agreements and other types of interest rate protection mechanisms, as approved by the prior orders, except that Covered Amounts will be the lesser of \$175 million or the amount available under the New Credit Agreement.

PSI Energy, Inc. (70-8727)

PSI Energy, Inc. ("PSI Energy"), 1000 East Main Street, Plainfield, Indiana 46168, an electric utility subsidiary of Cinergy Corp. ("Cinergy"), a registered holding company, has filed an application under sections 9(a) and 10 and rule 54 thereunder.

PSI Energy seeks authorization, through December 31, 1996, to enter into a business venture with H. H. Gregg ("Gregg"), a retail vendor of household electronic appliances and related consumer goods, involving an appliance sales program. PSI Energy believes that the venture with Gregg will facilitate the eventual marketing to customers of other energy-related and demand side management products, more fully utilize existing employees and offices to hold down costs, and strengthen ties to customers.

Under the proposed program, PSI Energy would market Gregg's electronic goods and appliances at retail, on a best efforts, consignment basis to PSI Energy's customers at a limited number of its local offices. When sales are made, Gregg would deliver the product to the customer and bill PSI Energy the wholesale price paid by Gregg for the product. In connection with the program, PSI Energy will also sell extended service warranties covering any items purchased. PSI Energy would either purchase such warranties from Gregg at a wholesale price and resell them to customers, or sell its own warranty and contract with Gregg to provide any of the related warranty work. PSI Energy also intends to arrange for customer financing through a bank or other financial institution, for which PSI Energy would receive a fee of up to 2% of the purchase price financed.

The current proposal involves a pilot program extending from November 24, 1995 through December 31, 1996. PSI Energy estimates that the pilot program will result in total sales revenues of approximately \$2.6 million (of which approximately \$2.3 million would accrue to Gregg), will utilize the full-time employee equivalent of three or four employees, and will involve approximately \$320,000 of expenditures (consisting primarily of advertising and sales expenses, expenses associated with the use of local offices and related facilities, and expenses associated with

employees' time). PSI Energy (or another Cinergy system company) may seek to extend this authorization, depending on the success of the pilot program.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.
