#### SUPPLEMENTARY INFORMATION:

**Title:** Prospective Large Power Service.

**OMB Control Number:** 0572-0001.

**Type of Request:** Extension and revision of a currently approved information collection.

**Abstract:** The Rural Utilities Service (RUS) makes mortgage loans and loan guarantees to electric systems to provide and improve electric service in rural areas pursuant to the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 *et seq.*) (RE Act). RUS electric borrowers often enter into special contracts with commercial and industrial consumers for the retail sale

of electricity. These contracts typically require extensions to the borrower's electric system which may be financed with RUS loan funds, debt financing from another source, the borrower's own funds, sometimes called general funds, and/or funds provided by the consumer.

RUS review of these contracts is intended to protect the interests of the government as a secured lender and to foster the purposes of the RE Act. RUS Form 170, Prospective Large Power Service, provides RUS with information needed for this review. RUS is considering comments on a proposed rule published July 20, 1995, at 60 FR 36904, that would significantly reduce the number of retail contracts that require RUS approval. RUS is currently reexamining its policies and procedures for review of these contracts.
