DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

Proposed Agency Information Collection Activities; Comment Request

ACTION: Notice and request for comments.

Currently, the Bureau of Alcohol, Tobacco and Firearms within the Department of the Treasury is soliciting comments concerning the Environmental Information and Supplemental Information on Water Quality Considerations.

DATES: Written comments should be received on or before January 5, 1996, to be assured of consideration.

ADDRESSES: Direct all written comments to Bureau of Alcohol, Tobacco and Firearms, Linda Barnes, 650 Massachusetts Avenue, NW., Washington, DC 20226, (202) 927-7768.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the form(s) and instructions should be directed to David W. Brokaw, Wine, Beer and Spirits Regulations Branch, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue, NW., Washington, DC 20226, (202) 927-8230.

SUPPLEMENTARY INFORMATION:

Title: Environmental Information and Supplemental Information on Water Quality Considerations.

OMB Number: 1512-0100.

Form Number: ATF F 1740.1 and ATF F 1740.2.

Abstract: The environmental forms are necessary in order to comply with

the provisions of the National Environmental Policy Act, 42 U.S.C. 4332 (ATF F 1740.1) and the Clean Water Act, 33 U.S.C. 1341(a) (ATF 1740.2).

Information regarding solid and liquid waste, air pollution, noise, etc. as collected on ATF F 1740.1 is evaluated to determine if a formal environmental impact statement or an environmental permit is necessary for a proposed operation. This environmental type information is collected from manufacturers, namely distilled spirits plants, wineries breweries and tobacco products factories. ATF F 1740.2 is also submitted by manufacturers but only those who discharge a solid or liquid effluent into navigable waters.

Applicants are required to describe any biological, chemical thermal or other characteristic of the discharge as well as any methods or equipment used to monitor the condition of the discharge. Based upon this data, ATF makes a determination as to whether a certification or waiver by the applicable state water quality agency is required. Should a manufacturer be required to submit both forms (ATF F 1740.1 and 1740.2) he may incorporate by reference any redundant information especially regarding solid and waste.

Current Actions: There are no changes to this information collection and it is being submitted for extension purposes only.

Type of Review: Extension.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 8,000.

Estimated Time Per Respondent: 30 minutes.

Estimated Total Annual Burden Hours: 4,400.

Request For Comments: Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Written comments should address the accuracy of the burden estimates and ways to minimize burden including the use of automated collection techniques or the use of other forms of information technology, as well as other relevant aspects of the information collection request.

Dated: October 31, 1995.

Acting Director.
