

through FedWorld (National Technical Information Service). The PTO BBS contains current patent bibliographic data, searchable for the most recent thirteen weeks. The Web site contains the images and searchable text for patents relating to AIDS research.

PTO offers electronic information products on various media, including magnetic tape and Compact Disc-Read Only Memory (CD-ROM). The PTO makes available machine-readable copies (on magnetic tape) of its patent and trademark data bases to customers who pay a fee based on the cost of preparing and distributing the tapes. The customers who purchase the data are primarily large-scale retailers of on-line data base services who in turn provide this data to thousands of customers.

The PTO makes extensive use of CD-ROM technology to disseminate its information. Products are available for use, free of charge, in PTO search facilities and at all PTDs, and may be purchased by the public. Four patent text products and three trademark text products, sold as annual subscriptions, are updated bimonthly or quarterly. USAPat, sold as an annual subscription and provided as two or three CD-ROMs per week, contains the images of all patents as they issue weekly.

Another important way of disseminating patent and trademark information to customers is through the Patent and Trademark Copy Sales (PTCS) system. Using this system, the PTO can fulfill requests for paper copies of patents and trademarks in a timely fashion.

Beginning in November 1995, PTO will make additional patent information available on the Internet at no charge to the public. This new service will be available via the PTO home page (<http://www.uspto.gov/>), and will offer approximately twenty years of searchable patent bibliographic text data (1.68 million documents covering 1976 through 1995). All information contained on the front page of a patent, excluding drawings, will be searchable and retrievable.

Conclusion

Using the input gathered from the announced meeting and the written comments, the PTO will analyze the existing information dissemination program in light of the new and existing technologies, the Paperwork Reduction Act of 1995, and OMB Circular A-130. The PTO will then redraft its policy and publish it for comment prior to finalizing it.

Dated: November 2, 1995.
Bruce A. Lehman,
*Assistant Secretary of Commerce and
Commissioner of Patents and Trademarks.*

DEPARTMENT OF DEFENSE

Department of the Army

Proposed Information Collection Available for Public Comment

AGENCY: Director of Information Systems for Command, Control, Communications, and Computers (DISC4), U.S. Army.

ACTION: Notice.

SUMMARY: In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Department of the Army announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

U.S. Military Academy (USMA) programs and curricula undergo periodic review for accreditation by the Accreditation Board of Engineering and Technology (ABET). As input to an upcoming review, perceptions of graduates about the effectiveness of their USMA education are required. The Superintendent delegates responsibility to the Director of Institutional Research for performing special institutional research projects such as program evaluations.

Title: West Point Graduates Survey 1996.

Needs and Uses: The perceptions of graduates on the effectiveness of the U.S. Military Academy programs and curricula are needed for periodic accreditation by the Accreditation Board of Engineering and Technology (ABET). ABET considers graduate feedback essential to the program. The information collected will be used to evaluate programs/curricula and make changes deemed advisable.

Affected Public: Individuals or households.

Annual Burden Hours: 1,059.
Number of Respondents: 1,826.
Responses Per Respondents: 1.
Average Burden Per Response: 35 minutes.

Frequency: One time.

SUPPLEMENTARY INFORMATION: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the below address or call the Department of the Army Reports Clearance Officer at (703) 614-0454.

FOR FURTHER INFORMATION CONTACT: Written comments and recommendations on the proposed information collection should be sent to United States Military Academy, Institutional Research and Analysis Branch, ATTN: MAOR-R, (DR. W. BURKE), BLDG. 2101, West Point, New York 10996. Consideration will be given to all comments received within 60 days of the date of publication of this notice. Gregory D. Showalter,

Army Federal Register Liaison Officer.

Corps of Engineers

Intent To Prepare an Environmental Impact Statement (EIS) for the Real Estate Acquisition for, and the Construction of, a U.S. Food and Drug Administration Mega-Laboratory

AGENCY: U.S. Army Corps of Engineers, Los Angeles District, DOD.

ACTION: Notice of intent.

SUMMARY: The Los Angeles District intends to prepare an EIS to support the FDA proposal to acquire ten (10) acres of land on the University of California Irvine Campus, and construct a 7,950 square meter (85,560 square foot) mega-laboratory. The purpose of the proposal is to allow the FDA to consolidate its current regional laboratories into a total of five (5) Mega-Laboratory facilities. The proposed project alternatives would include other sites in Orange County, as well as no action alternative. The EIS will analyze potential impacts on the environment of a range of alternatives, including the recommended plan. Scoping: The Army Corps of Engineers will conduct a scoping meeting prior to preparing the Environmental Impact Statement to aid in determining the significant environmental issues associated with the proposed action. The public, as well as Federal, State, and local agencies are encouraged to
