

Pathogenesis; Clinical Trials; Drug Discovery; Vaccines; and Behavioral and Social Sciences Research.

The purpose of the meeting is to seek input from individuals and organizations interested in the evaluation of AIDS research in the areas of therapeutics research as it pertains to drug discovery. Examples of areas under consideration by the panel include basic and applied research in HIV and opportunistic diseases, molecular and structural research, targeted drug discovery programs and animal models. The NIH AIDS Research Program Evaluation Working Group will develop recommendations to be made to the Office of AIDS Research Advisory Council that address the overall NIH AIDS research initiatives, both intramural and extramural, and identify long-range goals in the relevant areas of science. These recommendations will provide the framework for future planning and budget development of the NIH AIDS research program.

There will be a closed session from 1:00 pm to 6:00 pm on November 29, and 7:00 a.m. to 10:30 am on November 30, to update the Panel members on privileged information on institute and center grant and contract portfolios.

The open session from 9:00 am to 12:00 pm will begin with a brief overview of panel activities by members of the panel. The remainder of the meeting will be devoted to presentations from individuals and organizations. The session is open to the public; however, attendance may be limited by seat availability.

Comments should be confined to statements related to the current status NIH AIDS research in the areas of drug discovery for HIV-1 and its associated sequelae and recommendations for consideration by the panel in assessing and reviewing the relevant research in these areas.

Only one representative of an organization may present oral comments. Each speaker will be permitted 5 minutes for their presentation. Interested individuals and representatives of organizations must submit a letter of intent to present comments and three (3) typewritten copies of the presentation, along with a brief description of the organization represented, to the attention of Dr. Judith Feinberg, Office of AIDS Research, NIH, 31 Center Drive, MSC 2340, Building 31, Room 5C08, Bethesda, MD 20892-2340, (301) 496-0358, FAX: (301) 402-8638. Letters of intent and copies of presentations must be received no later than 5:00 pm on Wednesday, November 22.

Any person attending the meeting who does not request an opportunity to speak in advance of the meeting will be allowed to make a brief oral presentation at the conclusion of the meeting, if time permits, and at the discretion of the Chairperson.

Individuals wishing to provide only written statements should send three (3) typewritten copies of their comments, including a brief description of their organization, to the above address no later than 5 pm on November 22. Statements submitted after that date will be accepted. They may not, however, be made available to the Area Review Panel prior to the meeting, though they will be provided subsequently as written testimony.

Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Dr. Feinberg in advance of the meeting.
