

rheumatoid arthritis, systemic lupus erythematosus, systemic sclerosis, mixed connective tissue disease, polymyositis/dermatomyositis, fibromyalgia, necrotizing vasculitis and vasculopathies and Sjogren's Syndrome), degenerative joint disease, infectious agents other than rubella (whether by direct invasion or as an immune reaction), metabolic and endocrine diseases, trauma, neoplasms, neuropathic disorders, bone and cartilage disorders and arthritis associated with ankylosing spondylitis, psoriasis, inflammatory bowel disease, Reiter's syndrome, or blood disorders.

(iii) Arthralgia (joint pain) or stiffness without joint swelling shall not be viewed as chronic arthritis for purposes of paragraph (a) of this section.

(7) *Brachial neuritis*. (i) This term is defined as dysfunction limited to the upper extremity nerve plexus (i.e., its trunks, divisions, or cords) without involvement of other peripheral (e.g., nerve roots or a single peripheral nerve) or central (e.g., spinal cord) nervous system structures. A deep, steady, often severe aching pain in the shoulder and upper arm usually heralds onset of the condition. The pain is followed in days or weeks by weakness and atrophy in upper extremity muscle groups. Sensory loss may accompany the motor deficits, but is generally a less notable clinical feature. The neuritis, or plexopathy, may be present on the same side as or the opposite side of the injection; it is sometimes bilateral, affecting both upper extremities.

(ii) Weakness is required before the diagnosis can be made. Motor, sensory, and reflex findings on physical examination and the results of nerve conduction and electromyographic studies must be consistent in confirming that dysfunction is attributable to the brachial plexus. The condition should thereby be distinguishable from conditions that may give rise to dysfunction of nerve roots (i.e., radiculopathies) and peripheral nerves (i.e., including multiple mononeuropathies), as well as other peripheral and central nervous system structures (e.g., cranial neuropathies and myelopathies).

(8) *Thrombocytopenic purpura*. This term is defined by a serum platelet count less than 50,000/mm³. Thrombocytopenic purpura does not include cases of thrombocytopenia associated with other causes such as hypersplenism, autoimmune disorders (including alloantibodies from previous transfusions) myelodysplasias, lymphoproliferative disorders, congenital thrombocytopenia or hemolytic uremic syndrome. This does

not include cases of immune (formerly called idiopathic) thrombocytopenic purpura (ITP) that are mediated, for example, by viral or fungal infections, toxins or drugs. Thrombocytopenic purpura does not include cases of thrombocytopenia associated with disseminated intravascular coagulation, as observed with bacterial and viral infections. Viral infections include, for example, those infections secondary to Epstein Barr virus, cytomegalovirus, hepatitis A and B, rhinovirus, human immunodeficiency virus (HIV), adenovirus, and dengue virus. An antecedent viral infection may be demonstrated by clinical signs and symptoms and need not be confirmed by culture or serologic testing. Bone marrow examination, if performed, must reveal a normal or an increased number of megakaryocytes in an otherwise normal marrow.

(9) *Vaccine-strain measles viral infection*. This term is defined as a disease caused by the vaccine-strain that should be determined by vaccine-specific monoclonal antibody or polymerase chain reaction tests.

(10) *Vaccine-strain polio viral infection*. This term is defined as a disease caused by poliovirus that is isolated from the affected tissue and should be determined to be the vaccine-strain by oligonucleotide or polymerase chain reaction. Isolation of poliovirus from the stool is not sufficient to establish a tissue specific infection or disease caused by vaccine-strain poliovirus.

(11) *Early-onset Hib disease*. This term is defined as invasive bacterial illness associated with the presence of Hib organism on culture of normally sterile body fluids or tissue, or clinical findings consistent with the diagnosis of epiglottitis. Hib pneumonia qualifies as invasive Hib disease when radiographic findings consistent with the diagnosis of pneumonitis are accompanied by a blood culture positive for the Hib organism. Otitis media, in the absence of the above findings, does not qualify as invasive bacterial disease. A child is considered to have suffered this injury only if the vaccine was the first Hib immunization received by the child.

(c) *Effective data provisions*. The revised Table of Injuries set forth in paragraph (a) of this section and the Qualifications and Aids to Interpretation set forth in paragraph (b) of this section apply to petitions for compensation under the Program filed with the United States Court of Federal Claims on or after [the effective date of the Federal Register document which adopts these revisions as a final rule]. Petitions for compensation filed before

[such effective date] shall be governed by section 2114 (a) and (b) of the Public Health Service Act as in effect on January 1, 1995, or by § 100.3 as in effect on March 10, 1995 (see 60 FR 7678, *et seq.*, February 8, 1995) as applicable.

[FR Doc. 95-27562 Filed 11-7-95; 8:45 am]

BILLING CODE 4160-15-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-7161]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations and modified base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street, SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria

required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. No regulatory flexibility analysis has been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of Section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet. (NGVD)	
				Existing	Modified
Arkansas	Perryville (city) Perry County.	Fourche La Fave River	Approximately 3,100 feet downstream of State Highway 10, at the City of Perryville corporate limits.	None	*279
			Just downstream of State Highway 10 ...	None	*281
			Approximately 4,500 feet upstream of State Highway 10, at the City of Perryville corporate limits.	None	*283
			Approximately 2.8 miles upstream of State Highway 10, at the City of Perryville corporate limits.	None	*286
			Approximately 3.2 miles upstream of State Highway 10.	None	*287
		Cedar Creek	At confluence with Fourche La Fave River.	None	*282
			Just upstream of Cedar Street	None	*286
			Just upstream of Alpin Street State Highway 60).	None	*324
			Approximately 3,600 feet upstream of Alpin Street (State Highway 60), at the City of Perryville corporate limits.	None	*345

Maps are available for inspection at the City of Perryville Water Department, Corner of B and Pine Streets, Perryville, Arkansas. Send comments to The Honorable Charles Roland, Jr., Mayor, City of Perryville, P.O. Box 116, Perryville, Arkansas 72126.

Arkansas	Pulaski County (unincorporated areas).	Little Maumelle River	At confluence of Nowlin Creek	*268	*269
			Approximately 120 feet upstream of State Highway 10.	*293	*295
			Just downstream of Ferndale Cutoff Road.	*360	*358
			Just upstream of Grimmatt Lane	*478	*476
			Just upstream Brush Mountain Trail	*566	*564
		Kinley Creek	Approximately 1,000 feet upstream of confluence with Nowlin Creek.	*292	*295
			Approximately 150 feet upstream of State Highway 10.	*309	*310
			Just upstream of Garrison Road	*394	*396
			Just upstream of Copper Creek Lane	*429	*428
			Nowlin Creek	Approximately 1,700 feet above mouth ...	*268

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet. (NGVD)	
				Existing	Modified
		McHenry Creek	Approximately 150 feet downstream of Barrett Road.	*282	*281
			Just downstream of Goodson Road	*330	*330
			Approximately 100 feet upstream of County Road.	None	*400
			At upstream Limits of Detailed Study located at a County Road.	None	*500
			Approximately 1,150 feet upstream of Lawson Road.	*363	*359
			Approximately 200 feet upstream of Lawson Road.	None	*406
			Approximately 150 feet upstream of Green Bear Road.	None	*489
			Just upstream of Colonel Glenn Road	None	*546

Maps are available for inspection at the Planning Department, Pulaski County, 501 West Markham Street, Suite A, Little Rock, Arkansas. Send comments to The Honorable Floyd G. Villines, Pulaski County Judge, County Courthouse, 201 South Broadway, Little Rock, Arkansas 72201.

California	Cloverday (city) Sonoma County.	Cloverdale Creek	At confluence with the Russian River	*302	*302
			Just upstream of the Southern Pacific Railroad bridge.	None	*315
			Just upstream of Third Street	None	*338
			Approximately 200 feet upstream of Cloverdale Boulevard.	None	*374
			Approximately 100 feet upstream of Portofino Way.	None	*385

Maps are available for inspection at the City of Cloverdale, Department of Public Works, 124 North Cloverdale Boulevard, Cloverdale, California. Send comments to The Honorable Carol Chase, Mayor, City of Cloverdale, P.O. Box 217, Cloverdale, California 95425.

California	Coalinga (city) Fresno County.	Warthan Creek	At confluence with Los Gatos Creek	None	*643
			Approximately 200 feet downstream of Jayne Avenue (both levees intact).	None	*658
			Approximately 200 feet downstream of Jayne Avenue (right levee failed).	None	*657
			Approximately 200 feet downstream of Jayne Avenue (left levee failed).	None	*656
			Approximately 5,000 feet upstream of Jayne Avenue.	None	*675
		Los Gatos Creek	Approximately 3,150 feet downstream of confluence with Warthan Creek (levee intact).	None	*633
			Approximately 3,150 feet downstream of confluence with Warthan Creek (right levee failed).	None	*638
			Just downstream of Southern Pacific Railroad (abandoned railroad).	None	*652
			Approximately 1,600 feet upstream of confluence with Coalmine Canyon Creek.	None	*683

Maps are available for inspection at the Planning Department, 155 West Durin Street, Coalinga, California. Send comments to The Honorable Jim Allen, Mayor, City of Coalinga, 155 West Durin Street, Coalinga, California 93210.

California	Fresno County (unincorporated areas).	Warthan Creek	Approximately 1,200 feet upstream of confluence with Los Gatos Creek.	*646	*648
			Approximately 5,000 feet upstream of Jayne Avenue.	*678	*675
			Approximately 5,900 feet upstream of Alcalde Road.	*739	*739
		Los Gatos Creek	Approximately 9,000 feet downstream of Southern Pacific Railroad.	None	*618
			Approximately 3,200 feet downstream of Southern Pacific Railroad.	*641	*641
			Approximately 3,000 feet upstream of State Highway 198.	*691	*683

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet. (NGVD)	
				Existing	Modified
			At Gayle Avenue	*760	*760

Maps are available for inspection at the Fresno County Library, Fresno, California.

Send comments to The Honorable William H. Randolph, County Administrative Officer, 2281 Tulare Street, Fresno, California 93721.

California	Solano County (unincorporated areas).	Alamo Creek	At Leisure Town Road	*84	*86
			Approximately 550 feet upstream of Vanden Road.	*96	*96
		Ulatis Creek	Approximately 4,700 feet upstream of Pleasant Valley Road.	*232	*232
			At Pleasant Valley Road	*256	*256
			Approximately 12,400 feet upstream of Leisure Town Road.	*129	*125
			Approximately 14,650 feet upstream of Leisure Town Road.	*145	*139
			Just downstream of Fruitvale Road	*192	*193
			Approximately 4,600 feet upstream of Fruitvale Road.	*226	*224
		Bucktown Creek	At confluence with Ulatis Creek	*224	*222
			Approximately 1,000 feet upstream of confluence with Ulatis Creek.	*224	*224
		Encinosa Creek	Approximately 450 feet downstream of Pleasant Valley Road.	*238	*231
			At Pleasant Valley Road (upstream crossing).	*248	*241
		Laguna Creek	Approximately 100 feet upstream of Highway 80.	*198	*202
			Approximately 450 feet downstream of Cherry Glen Road.	*214	*213

Maps are available for inspection at Solano Department of Environmental Management, 601 Texas Street, Fairfield, California.

Send comments to The Honorable William Carroll, Chairman, Solano County Board of Supervisors, 580 Texas Street, Fairfield, California 94533.

Iowa	Elkader (city) Clayton County.	Turkey River	Approximately 1.0 mile downstream of Iowa 13.	*720	*718
			Just upstream of Iowa 13	*726	*722
			Just upstream of the dam	*735	*735
			At Corporate Limit	*739	*738

Maps are available for inspection at 207 North Main Street, Elkader, Iowa.

Send comments to The Honorable Tom Diers, Mayor, City of Elkader, 207 North Main Street, Elkader, Iowa 52043-0427.

New Mexico	Sandoval County and incorporated areas.	Arkansas Channel	At confluence with West Branch of Black's Arroyo.	None	*5,499
			Approximately 30 feet upstream of Lisbon Avenue.	None	*5,508
			20 feet upstream of Comanche Road	None	*5,529
		Arroyo D	Approximately 500 feet upstream of Comanche Road (Limit of Detailed Study).	None	*5,546
			At confluence with Tributary B	None	*5,286
			Approximately 20 feet upstream of 23rd Street.	None	*5,289
		Arroyo de los Lomitas Negras.	Approximately 500 feet upstream of 23rd Street (Limit of Detailed Study).	None	*5,299
			At the inlet to the Dulcelina Curtis Channel.	None	*5,098
			Approximately 1,000 feet upstream of the inlet to the Dulcelina Curtis Channel.	None	*5,100
		Arroyo de los Montoyas ...	Approximately 100 feet downstream of State Highway 528 (Limit of Detailed Study).	None	*5,121
			At the inlet to the Harvey Jones Channel	*5,075	*5,079
			Approximately 2,500 feet upstream of the inlet to the Harvey Jones Channel.	*5,098	*5,100
		At the Village of Corrales/City of Rio rancho Corporate Limits.	*5,135	*5,135	

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet. (NGVD)		
				Existing	Modified	
		East Branch of Black's Arroyo.	Approximately feet upstream of the inlet to the Harvey Jones Channel (Limit of Detailed Study).	None	*5,140	
			Approximately 120 feet upstream of the Sandoval/Bernalillo County Line.	None	*5,178	
			Approximately 100 feet upstream of 19th Street.	None	*5,240	
			Approximately 120 feet upstream of 18th Street.	None	*5,255	
			Approximately 40 feet upstream of Southern Boulevard.	None	*5,355	
			Approximately 40 feet upstream of Western Hills Drive.	None	*5,432	
			Approximately 600 feet upstream of Lema road (Limit of Detailed Study).	None	*5,459	
		West Branch of Black's Arroyo.	At the Sandoval/Bernalillo County Line ...	None	*5,200	
			Approximately 100 feet upstream of 19th Avenue.	None	*5,266	
			Approximately 70 feet upstream of Southern Boulevard.	None	*5,433	
			Approximately 20 feet upstream of Tarpon Avenue.	None	*5,531	
			Approximately 4,200 feet upstream of Tarpon Avenue (Limit of Detailed Study).	None	*5,561	
			Jemez River	Approximately 250 feet downstream of the Jemez Indian Reservation Boundary.	None	*5,602
				At confluence with the Rio Guadalupe	None	*5,656
		At the Village of Jemez Springs downstream corporate limits.		None	*5,984	
		Approximately 10,560 feet upstream of the Jemez Springs downstream corporate limits.		None	*6,145	
		Approximately 100 feet upstream of the Jemez Springs upstream corporate limits.		None	*6,305	
		Nicklaus Channel	Approximately 1,200 feet upstream of confluence with San Antonio Creek (Limit of Detailed Study).	None	*6,801	
			At confluence with the East Branch of Black's Arroyo.	None	*5,367	
			Approximately 60 feet upstream of Fairway Loop.	None	*5,393	
		Player Channel	Approximately 900 feet upstream of Lema Road (Limit of Detailed Study).	None	*5,418	
			At confluence with the East Branch of Black's Arroyo.	None	*5,355	
		San Antonio Creek	Approximately 20 feet upstream of Trevino Drive.	None	*5,375	
			Approximately 500 feet upstream of Trevino Drive (Limit of Detailed Study).	None	*5,380	
			At confluence with the Jemez River	None	*6,765	
			Approximately 10,000 feet upstream of confluence with the Jemez River.	None	*7,156	
			At confluence of Sulphur Creek	None	*7,616	
		Spur Channel	Approximately 8,300 feet upstream of confluence of Sulphur Creek (Limit of Detailed Study)..	None	*7,719	
			At confluence with the West Branch of Black's Arroyo.	None	*5,375	
			Approximately 40 feet upstream of Southern Boulevard.	None	*5,462	
		Sugar Channel	Approximately 1,100 feet upstream of Spur Road (Limit of Detailed Flooding).	None	*5,508	
			At confluence with the West Branch of Black's Arroyo.	None	*5,520	
			Approximately 20 feet upstream of Montego Drive.	None	*5,551	

State	City/town/county	Source of flooding	Location	#Depth in feet above ground. *Elevation in feet. (NGVD)	
				Existing	Modified
		Tributary A	Approximately 400 feet upstream of Montego Drive (Limit of Detailed Study). At confluence with the West Branch of Black's Arroyo.	None	*5,561

BILLING CODE 6718-04-P

44 CFR Part 67

[Docket No. FEMA-7159]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street, SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations

and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of

September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq.; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

Source of flooding and location	#Depth in feet above ground. *Elevation in feet (NGVD)
GEORGIA	
(Name of community)	
<i>Whitewater Creek:</i> At a point approximately 350 feet downstream of State Route 85	*750
Approximately 500 feet downstream of confluence of Whitewater Creek	*873
<i>South Camp Creek:</i> At confluence with Whitewater Creek	*759
