BILLING CODE 6712-01-M

FEDERAL RESERVE SYSTEM

[Docket No. R-0899]

Federal Reserve Bank Services

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice.

SUMMARY: The Board has approved a private sector adjustment factor (PSAF) for 1996 of \$85.8 million, as well as fee schedules for Federal Reserve priced services and electronic connections. These actions were taken in accordance with the requirements of the Monetary Control Act of 1980, which requires that, over the long run, fees for Federal Reserve priced services be established on the basis of all direct and indirect costs, including the PSAF.

DATES: The PSAF and the fee schedules become effective January 2, 1996.

FOR FURTHER INFORMATION CONTACT: For questions regarding the private sector adjustment factor: Elizabeth Tacik, Accounting Analyst (202/452-2303), Division of Reserve Bank Operations and Payment Systems; for questions regarding fees schedules: Scott Knudson, Senior Financial Services Analyst, ACH Payments (202/452-3959), Michele Braun, Senior Financial Services Analyst, Check Payments (202/452-2819), Darrell Mak, Financial Services Analyst, Funds Transfer and Book-Entry Securities Services, (202/452-3223), Ken Buckley, Manager, Information Technology (electronic connections), (202/452-3646), Michael Bermudez, Financial Services Analyst, (202/452-2216), or Marianne Hansberry, Financial Services Analyst, Cash Section, (202/452-2760), Division of

Reserve Bank Operations and Payment Systems. For users of Telecommunications Device for the Deaf only, please contact Dorothea Thompson (202/452-3544).

Copies of the 1996 fee schedules for the check, automated clearing house (ACH), funds transfer and net settlement, book-entry securities, noncash collection, and special cash services, as well as electronic connections to Reserve Banks, are available from the Reserve Banks.

SUPPLEMENTARY INFORMATION:

I. Private Sector Adjustment Factor

A. *Overview*—The Board has approved a 1996 PSAF for Federal Reserve priced services of \$85.8 million. This amount represents a decrease of \$8.9 million or 9.4 percent from the PSAF of \$94.7 million targeted for 1995.

As required by the Monetary Control Act (MCA) (12 U.S.C. 248a), the Federal Reserve's fee schedules for priced services include "taxes that would have been paid and the return on capital that would have been provided had the services been furnished by a private business firm." These imputed costs are based on data developed in part from a model comprised of the nation's 50 largest (in asset size) bank holding companies (BHCs).

The methodology first entails determining the value of Federal Reserve assets that will be used in producing priced services during the coming year. Short-term assets are assumed to be financed by short-term liabilities; and long-term assets are assumed to be financed by a combination of long-term debt and equity derived from the BHC model. For 1995, the mix of long-term debt and equity was modified slightly to ensure an imputed equity to asset ratio of 4 percent as required for adequately capitalized institutions under provisions of Regulation F (12 CFR 206.5). This was not necessary for 1996.

Imputed capital costs are determined by applying related interest rates and rates of return on equity (ROE) derived from the BHC model to assets used in providing priced services. The rates drawn from the BHC model are based on consolidated financial data for the 50 largest BHCs in each of the last five years. Because short-term debt, by definition, matures within one year, only data for the most recent year are used for computing the short-term debt rate.

In addition to capital costs, the PSAF includes imputed sales taxes, expenses of the Board of Governors related to priced services, and an imputed Federal
