[Docket No. RP96-34-000]

Texas Eastern Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

November 3, 1995.

Take notice that on October 31, 1995, Texas Eastern Transmission Corporation (Texas Eastern) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, tariff sheets listed on Appendix A to the filing. The proposed effective date of these revised tariff sheets is December 1, 1995.

Texas Eastern states that the tariff sheets are being filed (i) pursuant to Section 15.6, Applicable Shrinkage Adjustment (ASA), contained in the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1, and (ii) pursuant to Texas Eastern's Docket No. RP85-177-119, et al. Stipulation and Agreement ("Settlement") filed January 31, 1994 and approved by Commission order

issued May 12, 1994. Texas Eastern states that the filing constitutes Texas Eastern's third regular annual ASA filing under Section 15.6 for the purpose of reflecting changes in its requirement to retain gas in-kind in compensation for the quantities of gas used to provide service for its customers.

Texas Eastern states that the filing also constitutes Texas Eastern's second annual filing pursuant to the Settlement to (i) calculate revised reductions to its shrinkage factors to reflect projected purchases under Appendix C contracts under the Settlement, (ii) calculate revised Spot Fuel Components as provided in Section 5.08 of the Settlement, (iii) determine a Fuel Reservation Charge Adjustment rate to become effective December 1, 1995 based upon the balance as of August 31, 1995 in the non-Spot Fuel Deferred Account as provided in Section 5.09 of the Settlement, (iv) revise the Account No. 858 Costs rate component of Texas Eastern's rates as provided in Section 4.04 of the Settlement, and (v) report the second annual reconciliation of the interruptible revenues under Rate Schedules IT-1, PTI and ISS-1 as well as for Rate Schedule LLIT and for Rate Schedule VKIT. Texas Eastern states that all of the calculations associated with the changes proposed in the filing are in accordance with the Settlement and the methodologies previously approved by Commission orders.

Texas Eastern states that the changes proposed to become effective beginning December 1, 1995 consist of (1) revised ASA Percentages designed to retain in-kind the projected quantities of gas required for the operation of Texas Eastern's system, less quantities projected to be purchased from Appendix C contracts under the Settlement, in providing service to its customers for each seasonal calendar period, Winter (December 1, 1995-March 31, 1996), Spring Shoulder (April 1, 1996-May 31, 1996), Summer (June 1, 1996-September 30, 1996) and Fall Shoulder (October 1, 1996-November 30, 1996), (2) the ASA Surcharge designed to recover the net monetary value recorded in the Applicable Shrinkage Deferred Account as of August 31, 1995 (3) Spot Fuel Components designed to recover the Spot Costs, as defined in the Settlement, projected to be incurred over the twelve month period beginning December 1, 1995 and the balance recorded in the Spot Fuel Deferred Account as of August 31, 1995, (4) a Fuel Reservation Charge Adjustment designed to recover the excess (limited to a maximum rate) of the August 31, 1995 balance in the Non-Spot Fuel Deferred Account over

the threshold amount of \$30 million specified in Appendix E of the Settlement, and (5) a revised Account No. 858 Costs rate component designed to recover the August 31, 1995 balance recorded in the Account No. 858 Costs Deferred Account which represents the amount necessary to true up the actual costs incurred subsequent to the Effective Date of the Settlement with actual cost recoveries subsequent to the Effective Date of the Settlement, plus applicable carrying costs.

Texas Eastern states that the average decrease in usage rates due to the revised ASA Surcharge and the revised Spot Fuel Components is approximately 3 cents and the average increase in reservation rates due to the Fuel Reservation Charge Adjustment prescribed by the Settlement offset by the reduced Account No. 858 Costs is approximately 3 cents on a 100% load factor basis. Texas Eastern states that the ASA Percentages proposed in the filing are increased compared to those percentages in Texas Eastern's currently effective tariff due primarily to the reduction in the annual quantity of gas available to use as fuel from the Appendix C contracts as provided in the Settlement. Texas Eastern states that the increase in shrinkage percentages is offset by the decreases in Spot Fuel Components.

Texas Eastern states that copies of its filing have been served on all Firm Customers of Texas Eastern and Interested State Commissions, as well as all current interruptible shippers and all parties to the Settlement in Docket No. RP85-177-119, et al. Texas Eastern states that in accordance with the Settlement, with respect to those elements of the tariff sheets pursuant to the Settlement, Texas Eastern's filing is subject to refund or adjustment only to the extent not in compliance with the Settlement.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before November 13, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public

inspection in the Public Reference Room.
