Notice of Realty Action

AGENCY: National Park Service, Interior.

ACTION: Notice of realty action.

SUMMARY: Proposed exchange of Federal land for private land, both of which are located within the District of Columbia and within the boundary of the Chesapeake and Ohio Canal National Historical Park.

SUPPLEMENTARY INFORMATION: Public comments will be accepted for a period of 45 days from the date of this notice. An environmental assessment for this project was completed in August 1995, resulting in a Finding of No Significant Impact on September 6, 1995.

The land to be exchanged by the United States of America is generally described as follows: A rectangularly-shaped parcel of land containing approximately 1.09 acres lying and situated adjacent to the Potomac River in the City of Washington, the District of Columbia. The property is located approximately 910 feet west from the southwesterly corner of the intersection of 35th and K (Water) Streets, NW. The fee simple interest in the property is to be exchanged together with a 15-foot-wide right-of-way for ingress and egress across other lands of the United States.

The land to be acquired in fee simple by the United States of America is generally described as follows: An irregularly-shaped parcel of land, including a 15-foot-wide right-of-way for ingress and egress, containing approximately 1.09 acres of land and approximately 1.9 acres of right-of-way, lying and situated adjacent to the Potomac River in the City of Washington, the District of Columbia. The property is located approximately 5,300 feet west from the southwesterly corner of the intersection of 35th and K (Water) Streets NW., and contains approximately 1,076 feet of Potomac River shoreline. The land, located within the boundary of the Chesapeake and Ohio Canal National Historical Park, is now owned by the President and Directors of Georgetown College, a corporation which is better known as Georgetown University.

The selected Federal land, with attached use covenants, has been determined to be suitable for disposal by means of exchange. This exchange is authorized by 16 U.S.C. 4601-22(b) (188), and 16 U.S.C. 410y-1(b) (1988). No cultural resources resulting from human development and use have been identified on this tract. The vegetation found on this site is of the type found in previously-cleared urban areas. The land may be inhabited by limited populations of small mammals and birds. The property is located within a floodplain, and wetland characteristics are visible. The U.S. Army Corps of Engineers has been consulted and has

determined that subterranean improvements, if not corrected, have artificially altered the historic hydrology of the site.

The exchange Federal tract will become the site of a non-motorized boating facility which is functionally dependent on a waterfront floodplain site. The alternative to exchange of the Federal tract would be the development by Georgetown University of a boathouse upon the tract of land which is proposed to be acquired in this realty action.

The development by Georgetown University of a boathouse upon the Federal property that it would receive conforms with the findings of National Park Service studies and regional planning. The land to be acquired by the United States of America is an undisturbed parcel within the park boundary which features mature trees, a wetland which is contributory to the water quality of the Potomac River and the Chesapeake Bay, native vegetation, wildlife, and wildlife habitat.

Acquisition of this land will ensure that this tract: (1) Remains as an amenity to the public enjoyment of the Potomac River shoreline; (2) with its attached access rights will not conflict with the public use and enjoyment of a coincident recreational trail; and (3) will preserve the historic character of the Chesapeake and Ohio Canal National Historical Park as it leads to or departs its historic commercial destination of Georgetown. Acquiring this in holding is in furtherance of the Act creating this park.

The value of the properties are of approximate equal value. Each site was surveyed for the presence of hazardous materials and none were found. The mineral rights of both tracts are to be exchanged.

Detailed information concerning the exchange including precise legal descriptions, the environmental assessment, the Finding of No Significant Impact, maps, and other referenced reports in this exchange are available from the Associate Superintendent, Stewardship and Partnerships, National Capital System Support Office, National Park Service, 1100 Ohio Drive SW., Room 201, Washington, D.C. 20242.

Comments will be accepted from interested parties for a period of 45 calendar days from the date of this notice, and may be submitted to the above address. Comments will be evaluated and this action may be modified or vacated accordingly. In the absence of any action to modify or vacate this exchange, this realty action
