

15, 1995 through February 14, 1996, goods accompanied by Form ITA-370P which are presented to U.S. Customs for entry under the Special Access Program will not be accepted. In addition, for the period November 15, 1995 through February 14, 1996, you are directed not to sign ITA-370P forms for export of U.S.-formed and cut fabric for New Continental Sportswear.

Sincerely,

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-F

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Notice of Proposed Information Collection Requests.

SUMMARY: The Director, Information Resources Group, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before January 16, 1996.

ADDRESSES: Written comments and requests for copies of the proposed information collection requests should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, S.W., Room 5624, Regional Office Building 3, Washington, DC 20202-4651, or should be electronic mailed to the Internet address #FIRB@ed.gov, or should be faxed to 202-708-9346.

FOR FURTHER INFORMATION CONTACT: Patrick J. Sherrill, (202) 708-9186. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Department of Education (ED) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. The Office of Management and Budget (OMB) may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory

obligations. The Director of the Information Resources Group, publishes this notice containing proposed information collection requests at the beginning of the Departmental review of the information collection. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. ED invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: November 8, 1995.

Gloria Parker,

Director, Information Resources Group.

Office of Elementary and Secondary Education

Type of Review: Revision.

Title: Family Literacy Migrant

Education Even Start Program.

Frequency: Annually.

Affected Public: Not-for-profit institutions; State Local, Tribal Governments.

Annual Reporting and Recordkeeping Burden: Responses: 60; Burden Hours: 2700.

Abstract: The Migrant Education Even Start Program (MEES) is designed to help break the cycle of poverty and improve literacy by integrating early childhood education, adult literacy or adult basic education, and parenting into a unified literacy program for migrant families.

Office of Postsecondary Education

Type of Review: Reinstatement.

Title: Performance Report for the Training Program for Federal TRIO Programs.

Frequency: Annually.

Affected Public: Not-for-profit institutions.

Annual Reporting and Recordkeeping Hour Burden: Reporting Burden Responses: 12; Burden Hours: 48.

Abstract: Data assures that grantees have conducted the project for which funded, signals problems of implementation, and indicates extent and quality of performance. The Department uses reports in evaluating projects for continuation, assessing technical assistance needs, determining future funding levels and in assigning scores to projects in competition for new grants.

Office of Special Education and Rehabilitative Services

Type of Review: Regular.

Title: The Projects with Industry Program.

Frequency: Annually.

Affected Public: Not-for-profit institutions; State, Local or Tribal Government.

Reporting Burden: Responses: 411; Burden Hours: 16,440.

Recordkeeping Burden:

Recordkeepers: 0; Burden Hours: 0.

Abstract: Grant application forms, compliance indicator reports and Annual Evaluation Plan for the Projects With Industry Program are required so that all forms are uniformly completed.

BILLING CODE 4000-01-M

National Institute on Disability and Rehabilitation Research

AGENCY: Department of Education.

ACTION: Notice of public hearing and request for comments.

SUMMARY: The National Institute on Disability and Rehabilitation Research (NIDRR) is authorized to support research and related activities to improve the lives of individuals with disabilities, and is required to develop a Long-Range Plan for rehabilitation research. NIDRR invites interested parties to present comments at a public hearing on research and training needs and opportunities during the coming decade in all areas of disability. The Hearing will be organized into four sessions: (1) Technology and Medical Rehabilitation Research; (2) Employment Research; (3) Living Independently in the Community; and (4) Capacity-Building in Research and Rehabilitation Services. The purpose of the hearing is to obtain ideas from the public on the content and direction of a new NIDRR Long-Range Plan.

NIDRR encourages interested parties to attend a public meeting. Persons desiring to testify or seeking additional

information should telephone Ms. Sheila Newman at (703)488-2300; TDD may call (703)448-3079.

MEETING INFORMATION: The public hearing is scheduled to be held on Tuesday, November 28, 1995 from 10:00 a.m. to 5:00 p.m. in the auditorium of the Paralyzed Veterans of America at 801 Eighteenth Street, NW, Washington, DC 20006.

COMMENTS: NIDRR invites written comments from those who will be unable to attend the public hearing. Written comments should be received by December 29, 1995.

ADDRESSES: Written comments should be addressed to Ms. Sheila Newman, Conwal, Inc., 6858 Old Dominion Drive, Suite 200, McLean, VA 22101.

FOR FURTHER INFORMATION CONTACT: Persons desiring to participate or seeking additional information should telephone (703) 488-2300. Individuals who use a telecommunications device for the deaf (TDD) may call the TDD number at (703) 488-3079 for TDD service.

Dated: November 8, 1995.

Howard R. Moses,

Acting Assistant Secretary for Special Education and Rehabilitative Services.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Office of Arms Control and Nonproliferation Policy; Proposed Subsequent Arrangement

AGENCY: Department of Energy.

ACTION: Correction.

SUMMARY: In document #95-26719, published on October 27, 1995, page 55008, third column, replace the second sentence with the following:

The subsequent arrangement to be carried out under the above-mentioned agreements involves approval of the following retransfer: RTD/KO(SW)-1, for the transfer of 18,905 kilograms of uranium containing 718 kilograms of the isotope uranium-235 (3.8 percent enrichment) from Sweden to Korea for fuel production.

Edward T. Fei,

Deputy Director, International Policy and Analysis Division, Office of Arms Control and Nonproliferation.

BILLING CODE 6450-01-P

Floodplain Statement of Findings for a Proposed Time-Critical Removal Action at the Middlesex Sampling Plant Site and Vicinity Properties

AGENCY: Oak Ridge Operations Office, Department of Energy.

ACTION: Floodplain Statement of Findings.

SUMMARY: This is a Floodplain Statement of Findings for a proposed time-critical removal action at the Middlesex Sampling Plant Site and vicinity properties. DOE proposes to remove sediments containing elevated levels of uranium, radium, and thorium located in the 100-year floodplain of the South Drainage Ditch at the Middlesex Sampling Plant Site in Middlesex County, New Jersey. DOE prepared a Floodplain and Wetlands Assessment describing the effects, alternatives, and measures designed to avoid or minimize potential harm to or within the affected floodplain. DOE will endeavor to allow 15 days of public review after publication of the statement of findings before implementation of the proposed action.

FOR FURTHER INFORMATION ON THIS PROPOSED ACTION OR TO COMMENT ON THE ACTION, CONTACT: Ms. Susan Cange, Former Sites Restoration Division, Department of Energy, P.O. Box 2001, Oak Ridge, TN 37831-8541, Phone: (615) 576-5724, FAX: (615) 576-0956.

FOR FURTHER INFORMATION ON GENERAL DOE FLOODPLAIN/WETLAND ENVIRONMENTAL REVIEW REQUIREMENTS, CONTACT: Carol M. Borgstrom, Director, Office of NEPA Policy and Assistance, EH-42, Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 586-4600 or (800) 472-2756.

SUPPLEMENTARY INFORMATION: This is a Floodplain Statement of Findings prepared in accordance with 10 CFR Part 1022. A Notice of Floodplain and Wetlands Involvement was published in the Federal Register on July 6, 1993 (58 FR 36192). DOE proposes to remove sediments containing elevated levels of uranium, radium, and thorium located in the 100-year floodplain of the South Drainage Ditch at the Middlesex Sampling Plant Site in Middlesex County, New Jersey. The proposed action would be located in a floodplain because the concentrations of these radioactive elements in the sediments exceed levels considered safe for humans and the environment. DOE is remediating the Middlesex Site in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act

(CERCLA). The area to be disturbed would be approximately 0.3 hectare (0.7 acre) and excavation would be limited to a depth of approximately 0.15-0.3 meter (6-12 inches). Alternative remedial actions for the Middlesex site are no action or complete excavation. There is no practicable alternative to the proposed action if the site is to be remediated. Remediation is necessary to protect public health and the environment. The proposed action would conform to applicable state and local floodplain protection standards. The following steps would be taken to minimize potential harm to or within the affected floodplain:

1. The design and performance of excavation activities would incorporate guidelines contained in the document "Standards for Soil Erosion and Sediment Control in New Jersey," prepared by the New Jersey State Soil Conservation Committee.

2. During remediation operations the area of soil disturbance would be confined to the minimum necessary for successful completion of the cleanup.

3. Care would be exercised to provide minimum practicable exposure of soils and sediments to erosion.

4. A soil erosion and sediment control design would be prepared prior to any major soil disturbance. Soil erosion and sediment barriers would remain in place until the soil is stabilized by applicable measures.

5. Disturbed soils on the banks of waterways would be protected by rip-rap, sandbags, sod, or approved mulch netting, as conditions warrant, in accordance with "Standards for Soil Erosion and Sediment Control."

6. Sediment-laden water from dewatering of trenches or other excavations would not be pumped directly into waterways.

7. Trees, shrubs, grasses, and other vegetation within 25 feet of the stream bank or 25 feet from the edge of the low water flow, where the bank is not well defined, would be disturbed only where necessary for the remediation activities. Construction would be performed from one stream bank where possible, leaving vegetation on the opposite bank. Where practical, access roads to work sites would not be constructed along shoreline routes.

8. Vegetative waste, including waste mulch not serving to control erosion or sediment, would not be disposed of in channels or on waterway banks.

9. Remediation would not obstruct any streams and all streams would retain their original capacity for floodwaters. Therefore, the proposed action would not impede flow or increase flooding.
