

**Standard Paragraph**

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

*Secretary.*

BILLING CODE 6717-01-P

**[Docket No. CP95-614-000]****Paiute Pipeline Co.; Notice of Availability of the Environmental Assessment for the Proposed Paiute LNG Trucking Project**

November 8, 1995.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Paiute Pipeline Company (Paiute) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction project which includes the following facilities: and operation of Paiute's proposed liquefied natural gas (LNG) trucking

- About 330 feet of 3-inch-diameter transfer piping;
- A 115-foot-long drainage channel;
- A cryogenic flexible hose;
- Isolation and relief valves; and
- Other appurtenant facilities.

The purpose of the project is to construct an LNG truck unloading station to give Paiute the ability to provide its LNG storage service customers with additional options for

helping to meet their peak demand, emergency, or other requirements.

The EA has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, N.E., Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, State and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

A limited number of copies of the EA are available from: Mr. James Dashukewich, Environmental Project Manager, Environmental Review and Compliance Branch I, Office of Pipeline Regulation (PR11.1), 888 First Street, N.E., Washington, DC 20426, (202) 208-0117.

Any person wishing to comment on the EA may do so. Written comments must reference Docket No. CP95-614-000, and be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426.

Comments should be filed as soon as possible, but must be received no later than December 8, 1995, to ensure consideration prior to a Commission decision on this proposal. A copy of any comments should also be sent to Mr. James Dashukewich, Environmental Project Manager, at the above address.

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by section 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your comments considered.

Additional information about this project is available from Mr. James Dashukewich, Environmental Project Manager.

Lois D. Cashell,

*Secretary.*

**[Project No. 2680-017 Michigan]****Consumers Power Company and the Detroit Edison Company; Notice of Availability of Final Environmental Assessment**

November 8, 1995.

A final environmental assessment (FEA) is available for public review. The FEA is for a settlement agreement containing proposed measures for fish protection and angler access at the Ludington Pumped Storage Project (FERC No. 2680). The FEA finds that approval of the settlement agreement and implementation of the proposed measures for fish protection and angler access would not constitute a major federal action significantly affecting the quality of the human environment. The Ludington Pumped Storage Project is located on the eastern shore of Lake Michigan in Mason County, Michigan.

The FEA was prepared by staff in the Office of Hydropower Licensing, Federal Energy Regulatory Commission. Copies of the FEA can be viewed at the Commission's Reference and Information Center, Room 2-A, 888 1st Street, N.E., Washington, D.C. 20426. Copies can also be obtained by calling the project manager listed below. For more information, please contact the project manager, John Mudre, at (202) 219-1208.
