Agency for Health Care Policy and Research

Notice of Assessment of Medical Technology

The Agency for Health Care Policy and Research (AHCPR), through the Center for Health Care Technology (CHCT) (formerly Office of Health Technology Assessment), announces that it is initiating an assessment of the safety and effectiveness of lung volume reduction surgery.

The AHCPR is requesting information on the risks, benefits, and costs associated with the use of this mode of treatment and the specific indications

for which this lung surgery is appropriate. The AHCPR also requests information on patient selection criteria and institutional or team criteria necessary to establish acceptable standards for appropriate benefits and risks.

The assessment consists of a synthesis of information found in published literature and obtained from appropriate organizations in the private sector, Public Health Service (PHS) agencies and others in the Federal Government. AHCPR assessments are conducted in accordance with sections 904(b) and (d) of the PHS Act (42 U.S.C. 299a-2(b) and (d)). This assessment is based on the most current knowledge concerning the safety, clinical effectiveness, and appropriate uses of a technology. A recommendation will be formulated to

assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. The information being sought by this notice is a review and evaluation of past, current, and planned research related to this technology, as well as a bibliography of published, controlled clinical trials and other well-designed clinical studies. Information related to the characteristics of the patient population most likely to benefit from lung volume reduction surgery, as well as information on the clinical acceptability, effectiveness, and the extent of use of this technology, is also being sought.

The AHCPR is interested in receiving information which would help in the evaluation or review of the technology as described above. To enable the interested scientific community to evaluate the information included in the assessment, AHCPR will discuss in the assessment only those data and analyses for which a source(s) can be cited. Respondents are therefore encouraged to include with their submissions a written consent permitting AHCPR to cite the sources of the data and comments provided. Otherwise, in accordance with the confidentiality statute governing information collected by AHCPR, 42 U.S.C. 299a-1(c), no information received will be published or disclosed which could identify an individual or entity described in the information, or could identify an entity or individual supplying the information.

Any person or group wishing to provide AHCPR with information relevant to this assessment should do so in writing no later than February 13, 1996 to: Thomas V. Holohan, M.D., FACP, Acting Director, Center for Health Care Technology, Agency for Health Care Policy and Research, 6000 Executive Boulevard, Suite 309, Rockville, MD 20852, Phone: (301) 594-4023.

Dated: November 6, 1995.

Clifton R. Gaus,

Administrator.

Fees for Sanitation Inspections of Cruise Ships

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: This notice announces fees for vessel sanitation inspections effective January 1, 1996.

EFFECTIVE DATE: January 1, 1996.

FOR FURTHER INFORMATION CONTACT: Thomas E. O'Toole, Deputy Chief, Special Programs Group, National Center for Environmental Health, CDC, 4770 Buford Highway, NE., Mailstop F-29, Atlanta, Georgia 30341-3724, telephone (404) 488-7070.

SUPPLEMENTARY INFORMATION:

Purpose and Background

The fee schedule for sanitation inspections of passenger cruise ships currently inspected under the CDC Vessel Sanitation Program (VSP) was first published in the Federal Register on November 24, 1987 (52 FR 45019), and CDC began collecting fees on March 1, 1988. Since then, CDC has revised the fee schedule annually. This notice announces fees effective January 1, 1996.

The formula used to determine the fees is as follows:

$$\text{Average cost per inspection} = \frac{\text{Total Cost of VSP}}{\text{Weighted No. of Annual Inspections}}$$

The average cost per inspection is then multiplied by a size/cost factor to determine the fee for vessels in each size category. The size/cost factor was established in the proposed fee schedule published in the Federal Register on July 17, 1987 (52 FR 27060), and revised in a schedule published in the Federal Register on November 28, 1989 (54 FR 48942). The revised cost/factor is presented in Appendix A.

Fees

The fee schedule is presented in Appendix A and will be effective
