

The Secretary is often asked to speak on the subject of minimum wages and anticipates being asked to testify before congressional committees in the near future. The information obtained from participants in the toll-free number will be an important supplement to existing economic and other studies.

Theresa M. O'Malley,

*Acting Departmental Clearance Officer.*

## Occupational Safety and Health Administration

### NACOSH HazCom Workgroup Meeting

Notice is hereby given that a workgroup of the National Advisory Committee on Occupational Safety and Health (NACOSH), established under section 7(a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656) to advise the Secretary of Labor and the Secretary of Health and Human Services on matters relating to the administration of the Act, will meet on December 11 and 12, 1995, in N3437 A-D of the Department of Labor Building located at 200 Constitution Avenue NW., Washington, DC. The meeting, which is open to the public, will run from 1 p.m. to 5 p.m. on December 11 and from 8 a.m. to 4 p.m. on December 12.

The Occupational Safety and Health Administration (OSHA) has asked NACOSH to form a workgroup to identify ways to improve chemical hazard communication and the right to know in the workplace. OSHA has asked the Committee to provide OSHA with recommendations in approximately six months to simplify material safety data sheets, reduce the amount of required paperwork, improve the effectiveness of worker training, and revise enforcement policies so that they focus on the most serious hazards.

Beginning at 1:00 p.m. on December 11 and continuing through December 12, members of the public who are impacted by OSHA's hazard communication standard are invited to address the workgroup. Presentations will be limited to 10 minutes with time allowed for questions from the workgroup members. Additional information and/or documentation may be submitted and will be entered into the record. A verbatim transcript will be made of the proceedings which will be available to the public in the OSHA Technical Data Center (TDC) located in Room N2625 of the Department of Labor Building (202-219-7500).

Those who wish to make presentations should notify, no later

than December 1, Joanne Goodell, Directorate of Policy, OSHA, Room N-3641, 200 Constitution Avenue NW., Washington, DC, 20210, telephone (202) 219-8021, ext. 107, or FAX (202) 219-4383. Presenters must provide their name, the capacity in which they will appear, a brief outline of the content of the presentation, mail address, telephone and FAX numbers.

Presenters' specific requests to appear on either the December 11 afternoon session or the December 12 session will be honored to the extent the schedule allows. If there is sufficient time, others who have not notified OSHA will be permitted to make presentations after all those on the schedule have been heard. In the event that the number of requests to make presentations exceeds the available time, those with the earliest documented requests will be honored.

Written data, views or comments for consideration by the workgroup may be submitted, preferably with 20 copies, to Joanne Goodell at the address provided above. Any such submissions received prior to the meeting will be provided to the members of the Committee and will be included in the record of the meeting. Individuals with disabilities who need special accommodations should contact Tom Hall (202-219-8615) by December 7.

### Additional Meeting Schedule

On January 10-11, 1996, in Room N3437 A-D, the HazCom Workgroup will meet from 10:00 a.m. to 5:00 p.m. on January 10 and from 8:00 a.m. to 4:00 p.m. on January 11. Presentations by specialists will be made on the following subjects: label comprehension, electronic access systems, training programs, and the American National Standards Institute (ANSI) experience in developing a standard for Hazardous Industrial Chemicals—Material Safety Data Sheets.

On February 7-9, the HazCom Workgroup will meet in Room N3437 A-D to review all issues and finalize the concept for the report. The meeting will run from 10:00 a.m. to 5:00 p.m. the second day.

On March 20, the HazCom Workgroup will meet from 10:00 a.m. to 4:00 p.m. in Room N3437 A-D to review the total report, make any necessary changes and obtain concurrences.

It is anticipated that the final product of this workgroup will be submitted to the full National Advisory Committee on Occupational Safety and Health in mid to late April.

For additional information contact: Joanne Goodell, Directorate of Policy, Occupational Safety and Health Administration, Room N-3641, 200

Constitution Avenue, NW., Washington, DC, 20210, telephone (202) 219-8021.

Signed at Washington, DC this 8th day of November, 1995.

Joseph A. Dear,

*Assistant Secretary of Labor.*

## NATIONAL SCIENCE FOUNDATION

### Collection of Information Submitted for OMB Review

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Science Foundation (NSF) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, call Herman Fleming, NSF Clearance Officer at (703) 306-1243.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology.

### Proposed Project

Study of Persons with Disabilities Majoring in Science, Engineering, Mathematics, and Technology (SEMT). Individuals with disabilities do not pursue academic majors in science engineering, mathematics and technology in numbers commensurate with their prevalence in the population. Further, they are underrepresented among individuals who pursue science-oriented careers. This underrepresentation in SEMT of students with disabilities represents a major loss for both those individuals and the nation's scientific labor force. Currently, serious information gaps and contradictory data hamper the creation of policy and direction to allow and encourage talented young persons with disabilities to pursue careers in SEMT.

To address this need for information the proposed project has the following objectives; (1) To determine the number and demographic characteristics of these students. (2) To examine issues related to their pursuit of a degree, including research experience, high

school preparation, interest in SEMT, choice of college major, barriers, use of disability support service, critical incidents, and education and career goals. To address the research objectives, the proposed project involves an in-depth study of a sample (n=20) of different types of postsecondary educational institutions (research universities, 4-year colleges,

disability-friendly universities, and community colleges). At each institution, three groups of students will be surveyed: students with disabilities majoring in SEMT, students with disabilities majoring in other fields, and students without disabilities majoring in SEMT. Interviews with SEMT faculty at each institution will also be conducted. This approach will allow for exploration

of the ways in which students with disabilities majoring in SEMT are similar to and different from other groups of students, as well as the views of faulty toward students with disabilities. The project is planned as a one-time data collection what will occur in the spring of 1996. Burden estimates are as follows:

Respondents	Number of interviews	Estimated time in minutes	Total burden (hours)
SEMT students with disabilities .....	725	30	363
Non-SEMT students with disabilities .....	375	25	156
SEMT students without disabilities .....	375	25	156
SEMT faculty members .....	200	15	50

Send Comments to Herman Fleming, Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 485, Arlington, VA 22230. Written comments should be received by January 15, 1996.

Dated: November 9, 1995.

Herman G. Fleming,

*NSF Clearance Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-220]

### Niagara Mohawk Power Corporation; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Niagara Mohawk Power Corporation (the licensee) to withdraw its September 1, 1994, application for proposed amendment to Facility Operating License No. DPR-63 for the Nine Mile Point Nuclear Station Unit No. 1, located in Oswego County, New York.

The proposed amendment would have revised the pressure/temperature limits in the plant technical specifications.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the Federal Register on October 12, 1994, (59 FR 51620). On September 22, 1995, the staff issued a denial of the amendment request which was noticed in the Federal Register on September 29, 1995, (60 FR 50650). However, by letter dated October 27, 1995, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated September 1, 1994, the staff's denial dated September 22, 1995, and the licensee's letter dated October 27, 1995, which withdrew the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Reference and Documents Department, Penfield Library, State University of New York, Oswego, New York 13126.

Dated at Rockville, Maryland, this 6th day of November 1995.

For the Nuclear Regulatory Commission,  
Gordon E. Edison,  
*Senior Project Manager, Project Directorate I-1, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

[Docket No. 40-6659]

### Federal Register Notice of Amendment To Change Reclamation Milestone Date in Source Material License SUA-551 Held by Petrotonomics Company for Its Shirley Basin, Wyoming Uranium Mill

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Amendment of Source Material License SUA-551 to change a reclamation milestone date.

**SUMMARY:** Notice is hereby given that the U.S. Nuclear Regulatory Commission has amended Petrotonomics Company's (Petrotonomics') Source Material License SUA-551 for Shirley Basin Wyoming to change a reclamation milestone date. This amendment was

requested by Petrotonomics by letter dated September 5, 1995, and its receipt by NRC was noticed in the Federal Register on September 27, 1995.

The license amendment modifies License Condition 50 to change the completion date for a site-reclamation milestone. The new date approved by the NRC extends completion of placement of final radon barrier on the tailings pile by one year, and ten months. Petrotonomics attributes the delays to (1) NRC's re-examination of cover design for performance with current standards and practices, and (2) short construction season at the Shirley Basin site. Based on review of Petrotonomics' submittal, the NRC staff concludes that the delays are attributable to factors beyond the control of Petrotonomics, the proposed work is scheduled to be completed as expeditiously as practicable, and the added risk to the public health and safety is not significant.

An environmental assessment is not required since this action is categorically excluded under 10 CFR 51.22(c)(11), and an environmental report from the licensee is not required by 10 CFR 51.60(b)(2).

#### SUPPLEMENTARY INFORMATION:

Petrotonomics' license, including an amended License Condition 50, and the NRC staff's technical evaluation of the amendment request are being made available for public inspection at the NRC's Public Document Room at 2120 L Street, NW (Lower Level), Washington, DC 20555.

**FOR FURTHER INFORMATION CONTACT:** Mohammad W. Haque, High-Level Waste and Uranium Recovery Projects Branch, Division of Waste Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone (301) 415-6640.
