**Cove Point LNG Limited Partnership; Petition for Waiver of Tariff Provision**

November 14, 1995.

Take notice that on November 7, 1995, Cove Point LNG Limited Partnership (Cove Point) filed pursuant to Section 209 of the Commission's Rules of Practice and Procedure, 18 CFR 385.209, a petition for waiver of the timing provisions of Section 4(a) of Cove Point's General Terms and Conditions of its FERC Gas Tariff, First Revised Volume No. 1.

Cove Point states that the waiver of the 30-day posting requirement for notice of available capacity is necessary in order to make excess peaking capacity available for the 1995-96 winter Withdrawal Season. Cove Point states it has additional peaking capacity available for this winter, but that if it posted the capacity for the 30 days provided under its tariff, it would not be able to liquefy the gas prior to the

commencement of the Withdrawal Season (December 15, 1995).

Finally, Cove Point states that it has provided notice of the available capacity to its customers and has posted the notice on its electronic bulletin board. The notice provides that the capacity is available for five days (commencing November 6, 1995), and that the awarding of the capacity thereunder is subject to any necessary Commission waivers.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C., 20426, in accordance with Rules 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

**Florida Gas Transmission Company; Notice of Request Under Blanket Authorization**

November 17, 1995.

Take notice that on November 14, 1995, Florida Gas Transmission Company (FGT), 1400 Smith Street, P.O. Box 1188, Houston, Texas 77251-1188, filed in Docket No. CP96-66-000 a request pursuant to Sections 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to upgrade the existing Martin North Meter Station in Martin County, Florida under FGT's blanket certificate issued in Docket No. CP82-553-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

FGT states that the proposed construction was requested to give Florida Power and Light Company (FPL) more deliverability options at the Martin North Meter Station. The proposed upgrade will not increase the certificated level of service or contractual gas quantities which FGT is currently providing FPL. FGT's peak day and annual deliveries would not be impacted, there is sufficient capacity to accommodate service without detriment or disadvantage to FGT's existing customers and FGT's existing tariff does not prohibit the proposed upgrading.

FGT proposes to install an additional 12-inch meter tube and appurtenant facilities to accommodate a total gas measurement of up to 8,500 Mcf per hour at 250 psig. The estimated cost is
