DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO-933-96-1320-01; COC 54608]

Notice of Coal Lease Re-Offering By Sealed Bid; COC 54608

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of competitive coal lease sale.

SUMMARY: Bureau of Land Management, Colorado State Office, Lakewood, Colorado, hereby gives notice that certain coal resources in the lands hereinafter described in Routt County, Colorado, will be re-offered for competitive lease by sealed bid in accordance with the provisions of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 181 et seq.). On August 18, 1995, these resources were re-offered for competitive lease by sealed bid to the highest qualified bidder provided that the high bid met the fair market value of the coal resources as determined by the authorized officer after the sale. Cyprus Western Coal Company was the only bidder. The bid did not meet the fair market value established for this tract. Therefore, the bid was rejected and the tract is being re-offered. A third sale was scheduled for November 16, 1995; however, due to the federal employee furlough, the sale is rescheduled.

DATES: The lease sale will be held at 11 a.m., Friday, December 22, 1995. Sealed bids must be submitted no later than 10 a.m., Friday, December 22, 1995.

ADDRESSES: The lease sale will be held in the Conference Room, Fourth Floor, Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado. Sealed bids must be submitted to the Cashier, First Floor, Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215.

FOR FURTHER INFORMATION CONTACT:

Karen Purvis at (303) 239-3795.

SUPPLEMENTARY INFORMATION: The tract will be leased to the qualified bidder submitting the highest offer, provided that the high bid meets the fair market value determination of the coal resource. The minimum bid for this tract is \$100 per acre or fraction thereof. No bid less than \$100 per acre or fraction thereof will be considered. The minimum bid is not intended to represent fair market value.

Sealed bids received after the time specified above will not be considered.

In the event identical high sealed bids are received, the tying high bidders will be requested to submit follow-up bids until a high bid is received. All tiebreaking sealed bids must be submitted within 25 minutes following the Sale Official's announcement at the sale that identical high bids have been received.

Fair market value will be determined by the authorized officer after the sale. COAL OFFERED: The coal resource to be offered is limited to coal recoverable by underground mining methods in the Wadge seam on the Twentymile Tract in the following lands:

Sixth Principal Meridian

T. 5 N., R. 86 W.,

Sec. 21, N¹/₂, and SE¹/₄;

Sec. 22, E1/2E1/2, and W1/2;

Sec. 23, all;

Sec. 26, N¹/₂, and N¹/₂SW¹/₄;

Sec. 27, W1/2;

Sec. 28, NE $^{1}/_{4}$, and E $^{1}/_{2}$ NW $^{1}/_{4}$;

Sec. 33, NE1/4NE1/4,

The land described contains 2,600 acres, more or less.

The recoverable reserves have been adjusted down to 23.87 million tons to account for coal purchased by Cyprus Western Coal Company for two mineral R/W's. The Wadge seam underground minable coal is ranked as high volatile C bituminous coal. The estimated coal quality for the Wadge seam on an asreceived basis is as follows:

Btu—11,745 Btu/lb. Moisture—7.76% Sulfur Content—0.48% Ash Content—8.80%

Rental and Royalty

The lease issued as a result of this offering will provide for payment of an annual rental of \$3.00 per acre or fraction thereof and a royalty payable to the United States of 8 percent of the value of coal mined by underground methods. The value of the coal will be determined in accordance with 30 CFR 206.

Notice of Availability

Bidding instruction for the offered tract are included in the Detailed Statement of Coal Lease Sale. Copies of the statement and the proposed coal lease are available upon request in person or by mail from the Colorado State Office at the address given above. The case file is available for inspection in the Public Room, Colorado State Office, during normal business hours at the address given above.

Dated: November 21, 1995. Karen A. Purvis, Solid Minerals Team, Resource Services. [FR Doc. 95–28989 Filed 11–27–95; 8:45 am] BILLING CODE 4310–JB–M

Fish and Wildlife Service Availability of Draft Recovery Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability and public comment period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces the availability for public review of the draft recovery plan for *Jacquemontia reclinata*. *Jacquemontia reclinata* is restricted to the barrier islands of Florida's southeastern coast from Palm Beach County to Miami.

DATES: Comments on the draft recovery plan must be received on or before January 29, 1996 to receive consideration by the Service.

ADDRESSES: Copies can be obtained from Field Supervisor, Jacksonville Field Office, U.S. Fish and Wildlife Service, 6620 Southpoint Drive, South, Suite 310, Jacksonville, Florida 32216. Comments and material received are available upon request for public inspection at the above addresses.

FOR FURTHER INFORMATION CONTACT: Dr. L. Karolee Owens at 904/232–2580.

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure self-sustaining members of their ecosystems is a primary goal of the Service's endangered species program. To help guide the recovery effort the Service is working to prepare recovery plans for most of the listed species native to the

United States. Recovery plans describe actions necessary for the conservation of the species, establish criteria for the recovery levels for downlisting or delisting them, and estimate time and cost for implementing the recovery measures needed.

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 et seq.) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act, as amended in 1988, requires that public notice, and an opportunity for public review and comment be provided during recovery plan development. The Service will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. The Service and other Federal agencies will take these comments into account in the course of implementing approved recovery plans.

Jacquemontia reclinata was listed as an endangered species on November 24, 1993. Fewer than 1000 individual plants are presently found in small, widely separated populations in Broward, Dade, and Palm Beach Counties in Florida. The primary habitat is beach strand and maritime hammock vegetation. Its range has been further limited by habitat loss resulting from urban development, beach erosion, invasion of exotic plant species, and
