

Service Corps, what can the Corporation do to further the mission, vision, and goals that engage Americans of all ages and backgrounds in community-based service?

2. Price of national service—How can we deliver national service in a way that costs less but that is as, or more, effective? For instance, for AmeriCorps programs, think in light of common aspects such as direct service, living allowance and benefits, education award, diversity, community-driven partnerships, non-federal match, and national identity.

3. Increasing the non-federal share of the budget—What functions and activities might be the most attractive to outside funders? What kinds of incentives might be necessary? What is a realistic time table for increasing the percentage of funds from the private and independent sectors?

4. Corporation structure—What is an effective and efficient field structure? What are the appropriate roles for state commissions and the Corporation, including the state offices?

5. Politicization—How can we guard against the politicization of national service? Are there any aspects of current Corporation programs and practices that create a perception of politicization?

6. Partnership relations—What products, assistance, information do you need from the Corporation? What services would make the partnerships more effective?

In order to contribute in a timely manner to the discussions concerning the reauthorization of the Corporation and its programs, the Corporation invites public commentary on any aspect of the Corporation for National Service, its policies, and its programs, including the issues presented above. Specific statutory references are preferred, but are not necessary to the submission of comments. All comments will be considered but the Corporation will not be able to reply individually to each submitter.

Dated: November 22, 1995.

### Office of the Secretary

#### Notice of Intent To Prepare an Environmental Impact Statement for Proposed Military Training in the Territory of Guam and Islands of Rota, Tinian, and Farallon de Medinilla, Commonwealth of the Northern Mariana Islands

AGENCY: U.S. Pacific Command, DOD.

ACTION: Notice of intent.

**SUMMARY:** Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality regulations (40 CFR parts 1500-1508), the U.S. Pacific Command announces its intent to prepare an Environmental Impact Statement (EIS) for proposed military training in the Territory of Guam on the Islands of Rota, Tinian, and Farallon de Medinilla, Commonwealth of the Northern Mariana Islands (CNMI).

The actions to be covered in the EIS consist of training activities required to maintain military combat readiness. The EIS will analyze reasonable alternatives to meet this objective and assess their separate and cumulative environmental impacts. The U.S. Pacific Command will initiate a scoping process to identify significant related issues for study in the EIS and to identify and notify parties interested in and affected by the EIS.

The meetings will open with a short presentation of the purpose of the proposed action and alternatives to be evaluated, followed by a period for public comment. It is important that interested agencies, individuals, and organizations take this opportunity to identify environmental concerns that should be addressed in the EIS. To allow time for all views to be shared, each speaker will be limited to five minutes for oral comments.

Interested parties are also invited and encouraged to provide written comments in addition to, or in lieu of, oral comments at the public meetings. Scoping comments should clearly describe specific issues or topics that the EIS should address.

**DATES:** Three public scoping meetings will be held.

Guam: December 4, 1995, 7-10 pm.

Rota: December 6, 1995, 7-10 pm.

Tinian: December 7, 1995, 7-10 pm.

**ADDRESSES:** The scoping meetings will be held in the following locations:

Agaña, Guam: Governor's Cabinet Room, Adelup Complex.

Sing Song Village, Rota, CNMI: The Round House.

San Jose, Tinian, CNMI: Tinian School Cafeteria.

#### FOR FURTHER INFORMATION CONTACT:

Written statements and/or questions regarding the scoping process should be mailed no later than December 22, 1995 to Mr. Fred Minato (Code 238), Pacific Division, Naval Facilities Engineering Command, Pearl Harbor, HI 96860-7300; telephone (808) 471-9338; fax (808) 474-4890.

**SUPPLEMENTARY INFORMATION:** The proposed action consists of future military training activities in Guam and CNMI within existing military installations, public lands, and waters, including large-scale joint military exercises. Training will involve organizations from the U.S. Army, U.S. Marine Corps, U.S. Navy, U.S. Air Force, U.S. Army Reserve, Guam Army National Guard, and allied nations. Federal and Guamanian law enforcement agencies also train on these lands. The proposed training will take place on Tinian, primarily in the Military Lease Area, on Rota, primarily at Sand Island and the public airport, and on Guam, primarily at Andersen Air Force Base, Naval Activities Guam Ordnance Annex, and Apra Harbor. The proposed action also includes continued use of the island of Farallon de Medinilla for naval gunfire training and aerial bombardment.

Proposed training activities include tactical maneuver on foot and by wheeled and tracked vehicles, beach landings with boats, air-cushioned landing craft, and tracked amphibian vehicles, paratroops, fixed- and rotary-wing aircraft operations, underwater explosive ordnance training, military weapons and munitions training, and various logistical support activities.

Alternatives consist of: (1) The no action alternative, (2) the limited training activities alternative, (3) the proposed training activities alternative, and (4) alternate training locations. The "no action" alternative consists of continuing present training activities under present conditions, with no adjustment to planned future military needs. The "limited training activities" alternative consists of a sub-set of proposed training activities, based on constraints including the limitation of certain activities to avoid significant impacts to the environment. The "proposed training activities" alternative consists of implementing all proposed activities at the designated training locations. The use of alternate training locations is not applicable to this project.

Environmental issues to be addressed will include, but not be limited to,

effects on cultural resources, terrestrial and aquatic habitats, threatened or endangered species, water quality, infrastructure, traffic, noise, and socioeconomic environment. Direct, indirect, and cumulative impacts will be analyzed, and mitigation measures will be developed as required.

Dated: November 22, 1995.
