

Time of Meeting: 1000–1600.

Place: Pentagon—Washington, DC.

Agenda: The Army Science Board's Ad Hoc Study on "Reengineering the Acquisition and Modernization Processes of the Institutional Army" will meet to discuss the current status of Army Modernization and to discuss plans to reengineer the Acquisition and Modernization process. Discussion will include the current shortfalls in modernization and the attendant vulnerabilities to the U.S. Army. This meeting will be closed to the public in accordance with Section 552b(c) of Title 5, U.S.C., specifically subparagraph (1) thereof, and Title 5, U.S.C., Appendix 2, subsection 10(d). The classified and unclassified matters to be discussed are so inextricably intertwined so as to preclude opening any portion of this meeting. For further information, please contact Michelle Diaz at (703) 695-0781.

Michelle P. Diaz,

Acting Administrative Officer, Army Science Board.

BILLING CODE 3710-08-M

DEPARTMENT OF ENERGY

Providing Environmental Oversight and Monitoring at the INEL

AGENCY: Department of Energy, Idaho Operations Office.

ACTION: Notice of intent.

SUMMARY: The U.S. Department of Energy (DOE) intends to negotiate and award on a noncompetitive basis Grant No. DE-FG07-96ID13373 to the State of Idaho, Department of Health and Welfare (Recipient). The award has an estimated overall total value of \$15,000,000, of which DOE's share will be 100%. The award will allow the Recipient to ensure the DOE operations are fully accountable in the areas of environmental protection, public health, and safety. The State and DOE entered into an agreement in principle to assure the citizens of Idaho that health, safety, and the environment are being protected through DOE and State actions. This grant will provide funding to the State by DOE to carry out various environmental oversight and monitoring activities. A similar past agreement was very successful; therefore, DOE and Idaho determined to enter into a similar agreement for another five years.

FOR FURTHER INFORMATION CONTACT: Marshall C. Garr, Contract Specialist, (208) 526-1536, U.S. Department of Energy, Idaho Operations Office, 850 Energy Drive, Mail Stop 1221, Idaho Falls, Idaho 83401-1563.

SUPPLEMENTARY INFORMATION: It is anticipated that the award will provide the benefit of building public

confidence in DOE programs through the State's independent evaluation of DOE's environmental and waste management programs. The work anticipated under this new award is expected to have a continued impact towards meeting this benefit. The non-competitive award justification is Criteria (C) of 10 CFR 600.7(b)(2)(i), as follows:

(C) The applicant is a unit of government and the activity to be supported is related to performance of a governmental function within the subject jurisdiction, thereby precluding DOE provision of support to another entity.

The statutory authorities for the proposed award are Sections 102(11) and 102(13) of the Department of Energy Organization Act (42 U.S.C. 7112(11) and 7112(13)).

Procurement Request Number: 07-96ID13373.000.

Dated: November 21, 1995.

R. Jeffrey Hoyles,

Director, Procurement Services Division.

BILLING CODE 6450-01-P

Chicago Operations Office; Award Based on Acceptance of an Unsolicited Application

AGENCY: U.S. Department of Energy.

ACTION: Notice of financial assistance award in response to an unsolicited financial assistance application.

SUMMARY: The U.S. Department of Energy announces that pursuant to 10 CFR 600.14(e), it plans to negotiate and award Grant Number DE-FG02-96CH10851 to the Institute of Regulatory Science

SUPPLEMENTARY INFORMATION: The anticipated objective of the award is to provide for the application of "Best Available Science" (BAS) to the reevaluation of assessment methods based on scientific knowledge rather than opinions or value judgements. This proposal provides for a unique approach to choose the best available scientific information in that it suggests a clear separation of science from societal goals to enhance the accuracy of estimating environmental risks in an attempt to limit costly adverse effects. These goals will provide scientifically based data for others to utilize in pursuing environmental issues in the educational arena and provide the general public as well as the professional societies, knowledge of how risk factors were determined by making consensus reports more accessible. This proposal

provides a public service by providing the public with the best and most accurate scientific information with respect to utilizing the Best Available Science. DOE's Office of Environmental Management believes that there is a high probability of achieving the objectives.

The public is greatly served if environmental decisions would be based on BAS. It is the belief of the grantee that objectively computed risks will be somewhat lower than those based upon societal objectives. The lower the risk, the smaller the costs for adverse effects caused within the human health and environmental areas. It is likely that if this approach is successful the cost of environmental protection would be significantly reduced. Consequently, a higher level of environmental protection could be achieved by the current level of funding.

Additional benefits of this project are enhancement of public and university education and expand the availability of relevant published scientific information. The public will have easier access to data presented in relevant papers and consensus reports regarding BAS through their publication in the journal "Technology:Journal of the Franklin Institute" and a new "Encyclopedia of Environment." Education will be enhanced by the utilization of high school or community college minority students in researching environmental issues while applying BAS, participating with professional organizations in providing environmental courses, participation in technical conferences to discuss BAS for environmental issues, as well as participating in technical panels and making presentations to various groups regarding BAS in human health and environmental concerns.

The grantee plans to obtain this objective by educating students and professional organizations about the benefits and needs of BAS in relation to existing practices; and the dissemination of scientific information through the Technology publication and the new Encyclopedia of Environment. To assure reliance upon BAS the grantee proposes the utilization of not-for-profit professional organizations which include the following: (1) the American Society of Mechanical Engineers (ASME); (2) the American Association for the Advancement of Technology (AAAT); (3) the American Association of Engineering Societies (AAES); and (4) the National Council and Radiation Protection and Measurements (NCRPM). These organizations can provide peer-review of scientific aspects of the societal decisions, can reach a

consensus on scientific subjects related to protection of human health and the environment, and can support the publication of relevant BAS. In addition, and in accordance with the North American Free Trade Agreement (NAFTA), an organization was formed and is known by its Spanish acronym "CEPA" which is composed of Universities in Mexico and the U.S. which pursue environmental protection in Mexico. The proposed approach permits the development of relevant information based on scientific consensus, education of the professionals and high school students, and publication of relevant materials for the benefit of the scientific community, regulators, legislators, and above all, the general public.

The technical team is led by a uniquely qualified individual, Dr. A. Alan Moghissi, Ph.D., President of the Institute for Regulatory Science. He has broad regulatory experience and has served as a Senior Environmental Protection Agency (EPA) policy official. His interaction with industry over the years has fulfilled a critical need in obtaining an industry perspective. He has gained credibility with the intervenor community and Congress as a credible spokesman in the area of technical assessment of societal decisions. For the past 11 years under grants for this effort, Dr. Moghissi has gained unique experience and specialized knowledge in the reevaluation of risk assessments for human health and the environment. An example of the kind of accomplishments he has made is evident in the regulatory change that was made for tritium standards in drinking water. Dr. Moghissi, because of his unique past experience as stated above, is uniquely qualified to perform the proposed research.

This award meets the criteria for selection of an unsolicited application as specified under 10 CFR 600.14(e)(i) & (ii). Under subparagraph (i) the application is meritorious based on the foregoing general evaluation which is required by 10 CFR 600.14(d). Under subparagraph (ii) the proposed project represents a unique, innovative idea, method and approach which would not otherwise be eligible for funding under any other known recent, current, or planned solicitation and a competitive solicitation would be inappropriate. This award would be for approximately 5 years at an estimated total cost of three million dollars.

FOR FURTHER INFORMATION CONTACT:
David Ramirez, Contract Specialist,
(708) 252-2133; U.S. Department of

Energy, 9800 South Cass Avenue,
Argonne, Illinois 60439.

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission

[Docket No. EG96-15-000, et al.]

Indeck Pepperell Power Associates, Inc. et al.; Electric Rate and Corporate Regulation Filings

November 22, 1995.

Take notice that the following filings have been made with the Commission:

1. Indeck Pepperell Power Associates, Inc.

[Docket No. EG96-15-000]

On November 13, 1995, Indeck Pepperell Power Associates, Inc., a corporation organized and existing under the laws of the State of Delaware, with its address at 1130 Lake Cook Road, Suite 300, Buffalo Grove, Illinois 60089 (the "Applicant"), filed with the Federal Energy Regulatory Commission an application for determination of exempt wholesale generator ("EWG") status pursuant to Part 365 of the Commission's Regulations.

The Applicant will be engaged directly in owning an eligible facility located in Pepperell, Massachusetts (the "Pepperell Plant"). The Pepperell Plant consists of a nominal 38 MW combined-cycle cogeneration facility utilizing natural gas as its primary fuel and No. 2 fuel oil as a backup fuel.

Comment date: December 13, 1995, in accordance with Standard Paragraph E at the end of this notice. The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application.

2. IES Utilities Inc.

[Docket No. ER95-1444-001]

Take notice that on October 30, 1995, IES Utilities Inc. tendered for filing the following documents pursuant to the Commission's order dated September 28, 1995 in Docket No. ER95-1444-000:

- Revised Firm Point-To-Point Transmission Service Tariff.
- Revised Network Integration Service Tariff.
- Selections of Form Point-To-Point Transmission Service Tariff to be Revised.
- Selections of Network Integration Service Tariff to be revised.

Comment date: December 5, 1995, in accordance with Standard Paragraph E at the end of this notice.

3. Kentucky Utilities Company

[Docket No. ER95-1808-001]

Take notice that on November 13, 1995, Kentucky Utilities Company (KU) tendered for filing the rates and terms for transactions made pursuant to KU's Power Services Tariff and Service Agreements executed pursuant thereto Wabash Valley Power Association and Stand Energy Corporation filed with the Commission in docket No. ER95-1808-000.

Comment date: December 5, 1995, in accordance with Standard Paragraph E at the end of this notice.

4. Commonwealth Edison Company

[Docket No. ER96-282-000]

Take notice that on November 3, 1995, Commonwealth Edison Company (ComEd) submitted three Service Agreements, establishing Baltimore Gas and Electric Company (BG&E), Cleveland Electric Illuminating Company (Cleveland) and Toledo Edison Company (Toledo) as customers under the terms of ComEd's Power Sales Tariff PS-1 (PS-1 Tariff). The Commission has previously designated the PS-1 Tariff as FERC Electric Tariff, Original Volume No. 2.

Copies of this filing were served upon BG&E, Cleveland, Toledo and the Illinois Commerce Commission.

Comment date: December 6, 1995, in accordance with Standard Paragraph E at the end of this notice.

5. Pacific Gas and Electric Company

[Docket No. ER96-283-000]

Take notice that on November 6, 1995, Pacific Gas and Electric Company (PG&E), tendered for filing, as a change in rate schedule, new supplements to the Interconnection Agreement between Northern California Power Agency and Pacific Gas and Electric Company (PG&E-NCPA IA). These supplements reflect NCPA's reservation of transmission services for 1996 and 1997. The IA and its appendices were accepted for filing by the Commission on May 12, 1992 and designated as Rate Schedule FERC No. 142.

Copies of this filing were served upon NCPA and the California Public Utilities Commission.

Comment date: December 6, 1995, in accordance with Standard Paragraph E at the end of this notice.

6. Puget Sound Power & Light Company

[Docket No. ER96-284-000]

Take notice that on November 6, 1995, Puget Sound Power & Light
