Foreign-Trade Zones Board

[Docket 78-95]

Foreign-Trade Zone 82—Mobile, Alabama; Application for Subzone Status; Sony Magnetic Products Inc. of America; Dothan, AL

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Mobile, Alabama, grantee of FTZ 82, requesting special-purpose subzone status for the magnetic media and battery systems manufacturing plant of Sony Magnetic Products Inc. of America (Sony) (subsidiary of Sony Corp., Japan) located in Dothan, Alabama. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 21, 1995.

The Sony plant (1.2 mil. sq. ft. on 80 acres) consists of three sites in Dothan, Alabama: Site 1 (77 acres)—4275 Main Street; Site 2 (3.3 acres)—135 Woodburn Drive; and, Site 3 (1.6 acres)—921 Tate Drive. The facilities (1,100 employees) currently are used to produce magnetic media products for the recording of audio and video signals and digital information, including audio tape cassettes, video tape cassettes, 3.5-inch computer floppy disks and computer data tape. The plant may also be used to produce a lithium ion battery and recharger system. Some 50 percent of the products are exported.

Foreign-sourced materials and components for the media products (accounting for some 15% of final product value) include carbon, corundum, chromium and iron compounds, acyclic monocarboxylic acids, amine-function compounds, nitrogen compounds, coloring matter, paints, styrene, acrylic polymers, polyacetals, resins, silicones, cellulose, plastics, packing materials, fasteners, steel springs, articles of iron or steel, and prepared unrecorded media.

Foreign-sourced materials related to the proposed battery/recharger production would include transformers, batteries, capacitors, resistors, printed circuits, diodes, semiconductors, consoles, electrical apparatus, wire and battery parts.

Zone procedures would exempt Sony from Customs duty payments on foreign materials used in export production. On its domestic sales, the company would be able to choose the duty rates that apply to the finished products (zero to 8.7%), rather than the duty rates that would otherwise apply to the foreign material and components (zero to 18.6%). The application indicates that the savings from zone procedures would help improve the Sony plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been appointed examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 29, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to February 13, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:
