Because of the partial shutdown of the Federal government, the "bidders" conference scheduled for January 11, 1996 in Washington, D.C. is canceled. It may be rescheduled.

DATES: No applications will be accepted after 4:30 p.m. on January 26, 1996. This application deadline is firm as to date and hour. In the interest of fairness to all competing applicants, the Department will treat as *ineligible for consideration* any application that is received after the deadline. SUPPLEMENTARY INFORMATION: On September 29, 1995, HUD published two FY 1995 HBCU NOFAs: one

announcing up to \$2.5 million of FY 1995 funding for HBCUs to establish Community Development Corporations and one announcing up to \$1.5 million of FY 1995 funding for HBCUs to undertake jointly funded construction/reconstruction projects with units of general local government. The application due dates were given as November 28, 1995. That date was extended to January 11, 1996 for the CDC competition and to January 12, 1996 for the joint local government competition. Since the HUD Fiscal Year 1996 appropriations bill has not been signed, resulting in a disruption of HUD operations, the deadline is again extended. In order to provide more time for the preparation of applications and for technical assistance from HUD's HBCU staff, this deadline extends the application due date to January 26, 1996 for both competitions.

Dated: January 2, 1996.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Public Meeting With Interested Vendors for Ordering Reproductions of Still Photographs, Aerial Film, Maps, and Drawings

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of meeting.

SUMMARY: NARA will hold a meeting to discuss the continued privatization of reproduction services for still pictures, aerial film, maps, and drawings. On March 6, 1995, NARA began a test phase of new procedures for the delivery of reproduction services for records which NARA customers request from the Still Picture Branch (NNSP), the Cartographic and Architectural Branch (NNSC), and the Nixon Presidential Materials Staff (NLNP). NARA permitted vendors to set up work stations in College Park, MD, where the still photographs and cartographic and architectural records are housed and made available. The three units referred customer requests for reproduction of these media to the vendors, who determined fees, collected payments, performed the copying work, and mailed the reproductions to the customers. The purpose of this one-year trial program was to: (1) verify the degree to which the privatization of the reproduction order fulfillments of

NNSP, NNSC, and NLNP could improve customer service; and (2) ascertain the extent to which digital scanning can satisfy requirements from NARA's customers. NARA has decided to extend the program for one more year, with some changes. All vendors interested in this program, including vendors already participating, are invited to attend the next scheduled meeting on January 24, 1996. A follow-up meeting has also been scheduled for February 15, 1996, to answer any remaining questions from possible vendors, and to distribute copies of the memorandum of agreement.

DATES: The next meeting will be held on Wednesday, January 24, 1996, at 2 p.m. The follow-up meeting will be held on Thursday, February 15, 1996, at 2 p.m.

ADDRESSES: The meetings will be held in Archives II, lecture rooms D and E, located at 8601 Adelphi Road, College Park, MD.

FOR FURTHER INFORMATION CONTACT: Michael Goldman, Administrative Staff, at 301-713-7010.

Dated: January 2, 1996.

NUREG; Issuance, Availability

The Nuclear Regulatory Commission has recently published "Reassessment of NRC's Dollar Per Person—Rem Conversion Factor Policy," NUREG-1530. The conversion factor establishes the basis for translating radiological exposure to a monetary value and as such allows direct comparison between the potential health and safety benefits and the costs of a proposed regulatory initiative. This cost benefit tradeoff is an important consideration in NRC regulatory decisions. The new conversion factor policy discussed in this document has been incorporated in "Regulatory Analysis Guidelines of the U.S. Nuclear Regulatory Commission," NUREG/BR-0058, Revisions 2, November 1995.

Copies of NUREG-1530 may be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20402-9328. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. A copy is also available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC 20555-0001.

Members of the public who wish to comment on this NUREG-series report may do so, and on the basis of these comments, the NRC holds open the possibility of revising this policy in the future.
