

NNSP, NNSC, and NLNP could improve customer service; and (2) ascertain the extent to which digital scanning can satisfy requirements from NARA's customers. NARA has decided to extend the program for one more year, with some changes. All vendors interested in this program, including vendors already participating, are invited to attend the next scheduled meeting on January 24, 1996. A follow-up meeting has also been scheduled for February 15, 1996, to answer any remaining questions from possible vendors, and to distribute copies of the memorandum of agreement.

**DATES:** The next meeting will be held on Wednesday, January 24, 1996, at 2 p.m. The follow-up meeting will be held on Thursday, February 15, 1996, at 2 p.m.

**ADDRESSES:** The meetings will be held in Archives II, lecture rooms D and E, located at 8601 Adelphi Road, College Park, MD.

## NUCLEAR REGULATORY COMMISSION

### Documents Containing Reporting or Recordkeeping Requirements: Office of Management and Budget (OMB) Review

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment. The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

1. Type of submission, new, revision, or extension: Revision.

2. The title of the information collection: 10 CFR Part 61—Licensing Requirements for Land Disposal of Radioactive Waste

3. The form number if applicable: Not applicable.

4. How often the collection is required: Applications for licenses are submitted once. Applications for renewals or amendments are submitted as needed. Other reports are submitted annually and as other events require.

5. Who will be required or asked to report: Applicants for and holders of an NRC license for land disposal of low-level radioactive waste, and all generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility.

6. An estimate of the number of responses: 146.

7. The estimated number of annual respondents: 14

8. An estimate of the total number of hours needed annually to complete the requirement or request: 7,538 (approximately 3.5 hours per response and 506 hours per recordkeeper).

9. An indication of whether Section 3507(d), Pub. L. 104-13 applies: Not applicable.

10. Abstract: 10 CFR Part 61 establishes the procedures, criteria, and license terms and conditions for the land disposal of low-level radioactive waste. Reporting and recordkeeping requirements are mandatory or, in the case of application submittals, are required to obtain a benefit. The information collected in the applications, reports, and records is evaluated by the NRC to ensure that the licensee's or applicant's physical plant, equipment, organization, training, experience, procedures and plans provide an adequate level of protection of public health and safety, common defense and security, and the environment.

A copy of the submittal may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington, DC. Members of the public who are in the Washington, DC, area can access the submittal via modem on the Public Document Room Bulletin Board (NRC's Advance Copy Document Library) NRC subsystem at FedWorld, 703-321-3339. Members of the public who are located outside of the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions should be directed to the OMB reviewer by February 7, 1996: Troy Hillier, Office of Information and Regulatory Affairs (3150-0135), NEOB-10202, Office of

Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3084.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 28th day of December 1995.

For the Nuclear Regulatory Commission.

Arnold E. Levin,

*Acting Designated Senior Official for Information Resources Management.*

## NUREG; Issuance, Availability

The Nuclear Regulatory Commission has recently published "Reassessment of NRC's Dollar Per Person—Rem Conversion Factor Policy," NUREG-1530. The conversion factor establishes the basis for translating radiological exposure to a monetary value and as such allows direct comparison between the potential health and safety benefits and the costs of a proposed regulatory initiative. This cost benefit tradeoff is an important consideration in NRC regulatory decisions. The new conversion factor policy discussed in this document has been incorporated in "Regulatory Analysis Guidelines of the U.S. Nuclear Regulatory Commission," NUREG/BR-0058, Revisions 2, November 1995.

Copies of NUREG-1530 may be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20402-9328. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. A copy is also available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC 20555-0001.

Members of the public who wish to comment on this NUREG-series report may do so, and on the basis of these comments, the NRC holds open the possibility of revising this policy in the future.

Mail comments to: Chief, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Mail Stop T-6 D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Comments may be hand-delivered to 11545 Rockville Pike, Rockville, Maryland, between 7:45 a.m. and 4:15 p.m. on Federal workdays.

Dated at Rockville, Maryland, this 29 day of December 1995.

Bill M. Morris,

*Director, Division of Regulatory Applications,  
Office of Nuclear Regulatory Research.*

[No. IA 95-058]

**Five Star Products, Inc. and  
Construction Products Research  
Fairfield, Connecticut and H. Nash  
Babcock; Stipulation Between Nuclear  
Regulatory Commission and Five Star  
Products, Inc., Construction Products  
Research, Inc., and H. Nash Babcock**

Representatives of the Nuclear Regulatory Commission ("NRC") and Five Star Products, Inc., Construction Products Research, Inc. ("the Companies"), and H. Nash Babcock have met and have decided to resolve this matter as addressed in this Stipulation as set out below.

**Stipulation**

The NRC, the Companies, and H. Nash Babcock stipulate to the following:

1. The Companies and H. Nash Babcock are free to sell commercial-grade products to anyone in the nuclear industry, as they now do. "Commercial-grade" is defined as in 10 CFR Part 21 of the Commission's regulations. Five Star Products' commercial-grade materials may be used in any safety-related applications provided that NRC licensees properly dedicate the materials for use as basic components and verify their suitability for the applications. As of the date of the settlement, NRC has not evaluated the quality of Five Star Products' materials, nor has the NRC received reports that Five Star Products' materials contain defects.

2. The NRC hereby relaxes and modifies paragraph 1 and 2 of Section VI of the Order as follows:

"1. Until the Companies or H. Nash Babcock or any concern which is owned, controlled, operated or managed by H. Nash Babcock, satisfy the provisions of paragraph 2 below, they are prohibited from:

A. providing or supplying structures, systems, or components, including grout and concrete, subject to a procurement contract specifying compliance with 10 C.F.R. Part 50 Appendix B; and

B. providing or supplying basic components, including grout and concrete, subject to a procurement contract specifying that the contract is subject to the requirements of 10 CFR Part 21;

2.A. If the Companies, or any concern owned, controlled, operated or managed by H. Nash Babcock, desire to lift the prohibitions specified in paragraph 1.A and 1.B, above, then the Companies, H. Nash Babcock, or the concern owned, controlled, operated, or managed by H. Nash Babcock, shall, at least 90 days prior to the date it desires to have the prohibition lifted:

(1) Advise the NRC of that intent in writing;

(2) Deleted.

(3) Agree in writing, under oath or affirmation, and in fact, to permit the NRC, NRC licensees, and contractors performing QA functions for such licensees, to inspect the records, premises, basic components and activities of the Companies or of any concern owned, controlled, operated or managed by H. Nash Babcock that desires to provide safety-related products or basic components, or to perform tests to support claims that those products or components and those testing services meet the standards of 10 CFR Part 50 Appendix B and 10 CFR Part 21, and to signify in writing a willingness to do so in the future;

(4) Agree in writing under oath or affirmation to demonstrate and in fact to demonstrate that those basic components and services associated with basic components meet the standards of 10 CFR Part 50 Appendix B by having tests performed by a mutually acceptable third party and having that third party provide copies of the results of those tests directly to the NRC; and

(5) The officers, managers, and supervisors of the Companies provide statements that they understand that the activities and records of the organization are subject to NRC inspection and that communications with the NRC must be complete and accurate;

B. When all conditions of paragraph 2.A above have been satisfied, and the NRC has conducted inspections of the QA program and Part 21 program of the Companies or of any concern owned, controlled, operated, or managed by H. Nash Babcock, and any necessary corrective action has been completed, the prohibitions of paragraphs 1.A and 1.B, above, will be lifted in writing."

3. Except for the enforcement action reflected in the above-relaxed Order and this Stipulation, the NRC will neither impose, nor seek to impose, any sanction (other than as set forth in the relaxed Order and Stipulation) on the Companies or their officers and employees or H. Nash Babcock for the alleged violations described in the NRC Order issued on December 1, 1995.

4. All matters involving the termination of employment of Mr. Edward P. Hollub are not covered by, or affected by, this Stipulation, the Stipulation is without prejudice to the parties' positions with respect to the Commission's jurisdiction or lack thereof over employment matters, and the NRC, the Companies, any other related company, and H. Nash Babcock retain all rights in any such case, matter, proceeding, or litigation now pending or which may hereinafter be instituted.

5. In light of this Stipulation, the Companies and H. Nash Babcock agree not to request a hearing on the matters addressed in the Order issued on December 1, 1995 and relaxed as described herein, despite their vigorous disagreement with some of the allegations contained in the December 1, 1995 Order.

6. The NRC, the Companies, and H. Nash Babcock agree that the allegations in the Order have not been made subject to an evidentiary hearing, and that this Stipulation will obviate the necessity for such a hearing, and they therefore agree that those allegations shall not estop any party from taking a different position on such matters in any other case, litigation, matter, or proceeding.

7. The Order as relaxed herein shall be effective upon execution of this Stipulation. This Stipulation shall be published in the Federal Register.

8. The persons signing below certify by their signatures that they have authority to sign this Stipulation for the entities appearing below their names.

Dated: December 28, 1995.
