## [No. IA 95-058]

Five Star Products, Inc. and Construction Products Research Fairfield, Connecticut and H. Nash Babcock; Stipulation Between Nuclear Regulatory Commission and Five Star Products, Inc., Construction Products Research, Inc., and H. Nash Babcock

Representatives of the Nuclear Regulatory Commission ("NRC") and Five Star Products, Inc., Construction Products Research, Inc. ("the Companies"), and H. Nash Babcock have met and have decided to resolve this matter as addressed in this Stipulation as set out below.

## Stipulation

The NRC, the Companies, and H. Nash Babcock stipulate to the following:

- 1. The Companies and H. Nash Babcock are free to sell commercialgrade products to anyone in the nuclear industry, as they now do. "Commercial-grade" is defined as in 10 CFR Part 21 of the Commission's regulations. Five Star Products' commercial-grade materials may be used in any safetyrelated applications provided that NRC licensees properly dedicate the materials for use as basic components and verify their suitability for the applications. As of the date of the settlement, NRC has not evaluated the quality of Five Star Products' materials, nor has the NRC received reports that Five Star Products' materials contain defects.
- 2. The NRC hereby relaxes and modifies paragraph 1 and 2 of Section VI of the Order as follows:
- "1. Until the Companies or H. Nash Babcock or any concern which is owned, controlled, operated or managed by H. Nash Babcock, satisfy the provisions of paragraph 2 below, they are prohibited from:

A. providing or supplying structures, systems, or components, including grout and concrete, subject to a procurement contract specifying compliance with 10 C.F.R. Part 50 Appendix B; and

B. providing or supplying basic components, including grout and concrete, subject to a procurement contract specifying that the contract is subject to the requirements of 10 CFR Part 21;

- 2.A. If the Companies, or any concern owned, controlled, operated or managed by H. Nash Babcock, desire to lift the prohibitions specified in paragraph 1.A and 1.B, above, then the Companies, H. Nash Babcock, or the concern owned, controlled, operated, or managed by H. Nash Babcock, shall, at least 90 days prior to the date it desires to have the prohibition lifted:
- (1) Advise the NRC of that intent in writing:
  - (2) Deleted.
- (3) Agree in writing, under oath or affirmation, and in fact, to permit the NRC, NRC licensees, and contractors performing QA functions for such licensees, to inspect the records, premises, basic components and activities of the Companies or of any concern owned, controlled, operated or managed by H. Nash Babcock that desires to provide safety-related products or basic components, or to perform tests to support claims that those products or components and those testing services meet the standards of 10 CFR Part 50 Appendix B and 10 CFR Part 21, and to signify in writing a willingness to do so in the future;
- (4) Agree in writing under oath or affirmation to demonstrate and in fact to demonstrate that those basic components and services associated with basic components meet the standards of 10 CFR Part 50 Appendix B by having tests performed by a mutually acceptable third party and having that third party provide copies of the results of those tests directly to the NRC; and
- (5) The officers, managers, and supervisors of the Companies provide statements that they understand that the activities and records of the organization are subject to NRC inspection and that communications with the NRC must be complete and accurate;
- B. When all conditions of paragraph 2.A above have been satisfied, and the NRC has conducted inspections of the QA program and Part 21 program of the Companies or of any concern owned, controlled, operated, or managed by H. Nash Babcock, and any necessary corrective action has been completed, the prohibitions of paragraphs 1.A and 1.B, above, will be lifted in writing."
- 3. Except for the enforcement action reflected in the above-relaxed Order and this Stipulation, the NRC will neither impose, nor seek to impose, any sanction (other than as set forth in the relaxed Order and Stipulation) on the Companies or their officers and employees or H. Nash Babcock for the alleged violations described in the NRC Order issued on December 1, 1995.

- 4. All matters involving the termination of employment of Mr. Edward P. Hollub are not covered by, or affected by, this Stipulation, the Stipulation is without prejudice to the parties' positions with respect to the Commission's jurisdiction or lack thereof over employment matters, and the NRC, the Companies, any other related company, and H. Nash Babcock retain all rights in any such case, matter, proceeding, or litigation now pending or which may hereinafter be instituted.
- 5. In light of this Stipulation, the Companies and H. Nash Babcock agree not to request a hearing on the matters addressed in the Order issued on December 1, 1995 and relaxed as described herein, despite their vigorous disagreement with some of the allegations contained in the December 1, 1995 Order.
- 6. The NRC, the Companies, and H. Nash Babcock agree that the allegations in the Order have not been made subject to an evidentiary hearing, and that this Stipulation will obviate the necessity for such a hearing, and they therefore agree that those allegations shall not estop any party from taking a different position on such matters in any other case, litigation, matter, or proceeding.
- 7. The Order as relaxed herein shall be effective upon execution of this Stipulation. This Stipulation shall be published in the Federal Register.
- 8. The persons signing below certify by their signatures that they have authority to sign this Stipulation for the entities appearing below their names.

Dated: December 28, 1995.

For the United States Nuclear Regulatory Commission.
